

TARGET PRACTICE
FATAL TO NURSES

Mongolia Puts Back Into Port With Bodies of Two Young Women Accidentally Killed When Shell Whirls Back on Deck After Striking Water.

By Telegram to The Freeman.
At an American Port May 21.—The steamer Mongolia which sailed on May 19 with a Red Cross unit aboard, returned to this port today and reported the death of two Red Cross nurses by shellfire. Members of the Mongolia's gun crew indulged in target practice on the afternoon of May 19. A shell fired from one of the after starboard guns, after striking the water, took a centrifugal motion and returned to the deck of the Mongolia. It killed the two nurses on deck watching the practice, and wounded another.

A revenue cutter, notified by wireless, met the incoming Mongolia and took off the bodies of the nurses.

The Mongolia fired the first shot in the war between the United States and Germany. She either sank or disabled a German submarine that maneuvered to attack her on April 19 while on her way to Europe. She was commanded by Captain Emory Rice and Lieutenant Bruce was in charge of the gun crew.

Washington, May 21.—A report of the killing of two Red Cross nurses on the American liner Mongolia by a shell from the ship's own gun, reached the navy department today. The victims were Miss Edith Ayers and Miss Helen Burnett Woods, both of Chicago.

Both Mrs. Ayers and Miss Wood had been members of the Red Cross since 1914 and were called into active service only last Friday. Mrs. Ayers lived at 2113 Sedgewick street, Chicago, and had been connected with the Cook County Hospital in that city. Miss Wood, who was 28 years the day she was called for active duty, was a graduate of the Illinois Training School for Nurses of the Evanston Hospital. Her home was at 1114 Sheridan avenue, Chicago.

The navy department has no information about a third nurse being wounded.

It was the desire of the command of the Mongolia to return the bodies to shore rather than bury them at sea, that caused him to turn back on his course. There were 400 nurses in the contingent aboard the Mongolia, as well as full equipment for several Red Cross units.

No one was allowed aboard the Mongolia when she made port, and the only details of the accident came from those few of the vessel's complement who were permitted ashore. The nurses of the ambulance unit, attracted by the novelty of big guns in action, were grouped on the deck watching the practice when the shell exploded.

The weather was fair and the sea smooth, and the gun crew took advantage of these conditions to indulge in practice as soon as the vessel was out of range of coast shipping. It was announced the wounded nurse probably would recover, as a result of the quick emergency treatment applied.

FOOD CONTROLLER
HOOVER IS ON JOB

President and Congress Now Planning Legislation to Conserve Supply of Food—Hoover is on Job Fixing Furnish Two Stumbling Blocks.

By Telegram to The Freeman.
Washington, May 21.—Herbert C. Hoover was on the job today. The newly named food controller was busy with plans which are expected to prevent a food famine in this country. And while he worked out the organization of his bureau, President Wilson took steps to stimulate congress to give whatever legislation is needed to make the bureau a success and prevent further waste and provide complete conservation of foodstuffs in this country.

The question of what is to be done to conserve an increase the food reserves of the United States promises the most lively controversy of the war. Congress is badly divided on remedies. Many of the leading members are unalterably opposed to any measures which will permit price-fixing.

In addition the entire problem is complicated by the injection into the situation of the prohibition issue. The advocates of nation-wide prohibition are citing the waste of food materials in the manufacture of alcohol as a potent argument why the government should at once prohibit the use of grains for alcoholic production for the period of the war. The wets declare that this action simply is a subterfuge, and that the drys are taking advantage of the existing crisis to press their point regardless of its merits.

Firearms Energize Gypsies.

Rifles and shotguns are being resorted to by Dutchess county farmers in order to keep gypsy bands moving. More than the usual number of caravans of these nomads are reported in the Hudson Valley this spring.

ATTACKS CONTINUE
ON ARRAS FRONT

By Telegram to The Freeman.
London, May 21.—Hard fighting was in progress all night southeast of Arras, the Germans trying vainly to drive the British from the ground won north and south of the Seneze river on Sunday.

By breaking into the Hindenburg line in this sector, on a mile wide front between Bullecourt and Fontaine-les-Croisilles, the British have not only weakened the German positions at the southern end of the Wotan switch but are impelling the German garrisons in Cherisy and Hendecourt.

The infantry attacks of Field Marshal Haig's men were launched after a comparative lull in infantry operations on the Arras front. But, during the respite the British guns were busy all the way along the line from Lens to St. Quentin, blasting the German trenches with tons of high explosives.

This bombardment paved the way for a renewal of the assaults with the bayonet. The success of the British was followed by strong German counter attacks, in which the attacking forces lost heavily under the machine gun fire and the barrage from their batteries.

The French have renewed their pressure against the German positions north of the Aisne and in Champagne.

In the Oise valley, formerly the scene of violent fighting, operations have been checked by the Germans opening the sluice gates and flooding the low ground.

JAIL PRISONER
SLASHES HIS ARM

Carney, Who Chased Policeman With a Gun, Apparently Seeks to Make a Bid for Sympathy.

Perhaps laboring under the impression that some one would feel sorry for him and furnish the necessary bail, Daniel Carney, a boarder at the county jail, slashed his wrist Sunday morning with a knife and was found shortly after 7 o'clock with blood flowing from the wound. Carney is in the county jail awaiting trial on a charge of rape and assault in the second degree. Carney is the man who pointed a piece of light artillery at Sergeant Phinney when he attempted to make an arrest on the first charge against Carney. Although Carney pointed the gun at the officer and drove him down stairs from the house, he said, after Sergeant Phinney had gone back to the house and placed him under arrest, that he had no intention of shooting the officer.

When it was discovered that Carney had cut himself Police Surgeon Snyder was notified and hurried to the jail and dressed the wound, which was not serious, the knife having slashed a vein in the arm. Had Carney really intended to commit suicide he would not have been so careful in selecting the spot for the wound and it is the belief that he did it to create sympathy and have someone bail him out.

STOCK MARKET
OPENS STRONG

By Telegram to The Freeman.
New York, May 21.—Vigorous buying made the stock market active and strong at the opening today, with many issues selling at the highest prices reached in several months. There was a wide opening in United States Steel Common, the first sale being 6,000 shares at 123 1/4 to 123 3/4, and within a few minutes the price was up to 124, a gain of 1 1/2 points and a new high record. The other steel issues made gains of around one point, Bethlehem Steel advancing to 129 and Crucible to 69 1/2. The copper stocks were also strong, Anaconda moving up 1 1/4 to 81 1/4. The railroad stocks made good gains. Reading sold up to 30 and Missouri Pacific to 28 1/2. Central Leather rose 2 points to 88 1/2, and Industrial moved up 1 1/2 to 130 1/2, while Distillers and Securities made a gain of 1 1/4 to 19 1/2.

LAST CHANCE TO VOLUNTEER.

Army Recruiting Station Wants Men to Enlist at Once.

Men wanted—for the length of the war only. Now is the opportunity to enlist as a volunteer to answer the president's call for 700,000 men before conscription is in effect. Private James A. Davis of the United States Army recruiting station at the Knights of Columbus Home on Broadway, today posted notices of the call for men.

An application may be made at any postoffice in Ulster county if the applicant is unable to come to Kingston this week. "The country needs the army—the army needs men," is one significant line on the new posters.

CONSCRIPTION REGISTRATION
QUESTIONS TO BE ANSWERED

Information That Must be Given by all Men Between Ages of 21 and 30 on June 5 at Polling Places--Registrars for Districts in Ulster County.

Preparations for the registration of all men in the county between the ages of 21 and 30 on Tuesday, June 5th, in accordance with the law passed by Congress and the President's proclamation, preparatory to the draft for an army of 500,000 men, are well under way and will be completed within a few days by County Clerk Loughran, Sheriff and Dr. Frank Johnston, who compose the registration board for Ulster county.

Registrars for each election district in the county have been appointed and the list is published herewith. The Freeman also presents herewith the list of questions which will be asked, and the instructions which have been issued for the information of all those who will be required to register on that day.

Registering By Mail.

Provision has been made in the law for registration by mail in cases where the applicant cannot appear personally for registration on June 5th.

In case a person cannot be present personally for registration in his own precinct, or election district, on June 5th, he should at once apply to the county clerk and have a registration card filled out. This card must be mailed by the person so registered to the registrar of his precinct, or district, in care of the sheriff, so that the sheriff will be able to deliver the card to such registrar on that day.

Ulster countymen between the ages of 21 and 30 who will not be at home on June 5th by reason of their occupation or who by reason of sickness will be unable to present themselves personally for registration in the district where they reside must apply to the county clerk for registration and mail their card to the registrar of their district either personally or in care of the sheriff.

In case of sickness, a person duly authorized by the sick person is empowered to procure the card, fill it out and mail it. If any male resident of Ulster county between the ages of 21 and 30 is now out of the county and does not expect to be here on June 5, he should at once apply to the county clerk in the county where he now is, or the city clerk if cities of over 30,000 population, to have his registration card filled out, and mail it to the registrar of the district where he lives. Traveling salesmen and others now in Ulster county between the ages of 21 and 30 who will not be at home for personal registration on June 5 should apply at once to County Clerk Loughran to have their cards filled out and should mail them at once to the registrar of the district where they live, or in care of the sheriff of their home county, and they should DO IT NOW.

Personal registration will take place in Ulster county at the polling place in each election district of the county, and the male residents of each district between the ages of 21 and 30 must register personally unless they are ill or out of the district, for which cases provision for registration has been made as stated above. The registration cards will be filled out by the registrars.

How to Answer Questions.

The following are the instructions issued for all those who must register.

How to Answer Questions on Registration Cards.

Read carefully before you go to the registration table. Here you see what will be asked. Study the questions. Prepare the answers in your mind.

Questions will be asked for you to answer in the order in which they appear on this paper. These questions are set out below with detailed information to help you answer them.

Do not write on, mark or otherwise mutilate these instructions. Do not remove them. They should be carefully read so that you will have your answers ready when you go before the registrar.

All answers will be written on the registration card in ink by the registrar, who should be careful to spell all names correctly and to write legibly.

1. Name in full. Age in years.

This means all your names spelled out in full.

State your age today in years only. Disregard additional months or days. Be prepared to say "21" or "25," not "21 years, 3 months," or the like. Give age on 1917 birthday.

2. Home address.

This means the place where you have your permanent home, no matter where you work. Be prepared to give the address in this way: "232 Main street, Chicago, Cook county, Illinois;" that is, give number and name of street first, then town, the county and state.

3. Date of birth.

Write your birthday (month, day and year) on a piece of paper before going to the registrar, and give the paper to him the first thing. Example: "August 5, 1894." If you do not remember the year, start to answer as you would if someone asked your birthday, as "August 5th." Then say "on my birthday this year I will be (or was) years old." The registrar will then fill in the year of birth. Many people do not carry in mind the year they were born. This may be obtained by the registrar by subtracting the age in years on this year's birthday from 1917.

4. Are you (1) a natural-born citizen; (2) a naturalized citizen; (3) an alien; (4) or have you declared your intention to become a citizen (specify which)?

(1) If you were born in the United States, including Alaska and Hawaii you are a natural-born citizen, no matter what may have been the citizenship or nationality of your parents. If you were born in Porto Rico, you are a citizen of the United States, unless you were born of alien parentage. If you were born abroad, you are still a citizen of the United States if your father was a citizen of the United States at the time you were born, unless you have expatriated yourself.

(2) You are a naturalized citizen if you have completed your naturalization, that is, if you have "taken final papers." But you are not a citizen if you have only declared your intention to become a citizen (that is, if you have only "taken out first papers"); in the latter case you are only a "declarant."

You are also a naturalized citizen if, although foreign born, your father or surviving parent became fully naturalized while you were under 21 years of age, and if you came to the United States under 21.

(3) You are a declarant if, although a citizen or subject of some foreign country, you have declared an oath before a naturalization court your intention to become a citizen of the United States. Receipt from the clerk of the court of the certified copy of such declaration is often called "taking out first papers." You are not a declarant if your first paper was taken out after September 26, 1906, and is more than 7 years old.

(4) You are an alien if you do not fall within one of the three classes above mentioned.

5. Where were you born?

First name the town, then the state, then the country, as "Columbus, Ohio;" "Vienna, Austria;" "Paris, France;" "Sofia, Bulgaria."

6. If not a citizen, of what country are you a citizen or subject?

This need be answered only by aliens and declarants. Remember that a "declarant" is not yet a citizen of the United States. If an alien or declarant, state the name of your country, as "France," "Japan," "China," etc.

7. What is your present trade, occupation, or office?

This does not ask what you once did, nor what you have done most of the time, nor what you are best fitted to do. IT ASKS WHAT YOUR JOB IS RIGHT NOW. State briefly, as "Farmer," "Miner," "Student," "Laborer (on farm, in rolling mill, in automobile, wagon or other factory)," "Machinist in automobile factory," etc. If you hold an office under State or Federal government, name the office you hold. If you are in one of the following offices or employments, use one of the names hereafter mentioned:

"Customhouse clerk," "employed in the transmission of the mails," "employed in an armory, arsenal, or navy yard," "mariner, actually employed in the service of citizen or merchant within the United States."

8. By whom employed? Where employed?

If you are working for an individual, firm, corporation or association, state its name. If in business, trade, profession, or employment for yourself, so state. If you are an officer of the state or Federal government, say whether your office is under the United States, the state, the county, or a municipality. In answer to the question as to where you are employed, give the town, county, and state where you work.

9. Have you a father, mother, wife, child under 12, or a sister or brother under 12 solely dependent upon you for support (specify which)?

Consider your answer thoughtfully. If it is true that there is another mouth than your own which you alone have a duty to feed, do not let your military ardor interfere with the wisest of the nation to reduce war's misery to a minimum. On the other hand, unless the person you have in mind is solely dependent on you, do not hide behind petticoats or children.

10. Married or single (which)? Race (specify which)?

This does not ask whether you were once married, but whether you are married now. In answer to the question as to your race, state briefly whether "Caucasian," "Mongolian," "Negro," "Malayan," or "Indian."

11. What military service have you had? Rank? Branch? Years? Nation or state?

No matter what country you served you must give complete information. In answering these questions, first name your rank, using one of the following words: "Commissioned officer," "Noncommissioned officer," "Private." Next, state branch in

which you served in one of the following words: "Infantry," "Cavalry," "Artillery," "Medical," "Signal," "Aviation," "Supply," "Marine," "Navy." Next, state the number of years' service, not counting time spent in the reserve. Finally, name the nation or state you served. If you served under the United States, or one of the states of the United States, name your service in one of the following terms: "National Guard (of such and such a state)," "Militia (of such and such a state)," "Volunteers of United States," or "Regular army (navy) of United States."

12. Do you claim exemption from draft? Specify grounds.

Because you claim exemption from draft, it by no means follows that you are exempt. For the information of the war department you should make a claim now if you intend to prosecute it. Some persons will be exempted on account of their occupations or offices, some on account of the fact that they have relatives dependent upon them for support. Your answer touching these important things will be important in supporting the claim you now intend to make in your answer to the present questions. Be sure, therefore, that the grounds you now state are in conformity with your answers to questions 7 and 8. In stating grounds you claim as exempting you, use one of the following terms: If you claim to be an executive, legislative, or judicial officer of the state or nation, name your office and say whether it is an office of the state or nation. If you claim to be a member of a religious sect whose creed forbids its members to participate in war in any form, simply name the sect. If you are employed in the transmission of the United States mails or as an artificer or workman in an armory, arsenal or navy yard of the United States, or if you are a mariner employed in the sea service of any citizen or merchant within the United States, so state. If you are a felon or otherwise morally deficient and desire to claim exemption on that ground, state your ground briefly. If you claim physical disability, state that briefly. If you claim exemption on any other ground, state your ground briefly.

STATE TRACTORS
IN ULSTER COUNTY

Farm Bureau Action Results in Securing Two Machines, One to Begin Plowing at Walkkill and the Other at Accord--Seed Potatoes in Great Demand.

State purchased farm tractors are in use now and two have been arranged for through the Ulster County Farm Bureau which was early with its application. One of these tractors is now at Walkkill and will soon be in operation and the other is expected to arrive at Accord within a few days. The tractors will be used for plowing and the cost to the farmer is merely payment of the actual operating expenses plus a depreciation charge of \$1 per acre plowed. At the end of the season, the tractors will be sold at the cost price paid by the state, less the amount of depreciation charges paid in by users.

An expert man accompanies and operates each machine and it is believed that this innovation will prove most useful in Ulster county, which is feeling the need for farm labor. The cost of tractor plowing is said to average much less than that of horse drawn plows.

When the State Food Supply Commission announced its intention of furnishing tractors, the local Farm Bureau acted at once and put in an application for four of these machines, two being en route as above stated. Farmers are looking forward to the use of these tractors with considerable interest.

The first carload of seed potatoes was received and allotted last week, the price being \$3.04 a bushel. The demand for seed potatoes has been greater than the supply. Another carload is expected and has already been spoken for, a number of late applications having had to be turned down because of their tardiness. It is probable that hereafter when the Farm Bureau makes announcements of such distributions, prospective users will get in earlier with their applications in order to save disappointment.

Endeavors are being made to secure seed buckwheat of which there is a shortage. The state commission has made some purchases in carload lots, but the extent of the supply available is not yet known.

Chinese Cabinet Resigns.

PRISON TERMS IN
CONSPIRACY CASE

By Telegram to The Freeman.

New York, May 21.—Preparations were made today for an early retrial of the four defendants in the von Rintelen conspiracy case, upon which the jury was unable to reach a verdict. They are: Frank Buchanan, former congressman from Illinois; R. Robert Fowler, former congressman from Illinois; Herman Schulteis, counsel for the American Anti-Trust League; and Jacob C. Taylor, second president of the National Peace Council.

Judge Cushman, in federal district court, this afternoon will pronounce sentence upon the three convicted men. They are Captain Frank von Rintelen, of the German navy; David Lamar, so-called "Wolf of Wall Street," now serving a sentence in the Atlanta federal prison, and Henry B. Martin, head of the American Anti-Trust League, and a familiar Washington lobbyist.

The convicted men may receive a maximum sentence of one year in prison and fine of \$5,000. They were found guilty of violating the Sherman anti-trust law in fomenting strikes to prevent the shipment of war munitions to the entente allies.

Washington.—Colonel Roosevelt's action in freeing his volunteers will have a material effect on recruiting the National Guard to full war strength, officials said today. They believe that many of those who wanted to go with the colonel now will turn to the guard.

Washington.—Following the appeal of Fairfax Harrison to railroad executives to release train-men for service in the engineering unit going to France to re-build transport there, officials today predicted the planned ten regiments would reach war strength in a fortnight.

Washington.—The drafting machinery which will expedite registration of the individuals from among whom the "first 500,000" will be selected, was set in motion in every state today when registration information bureaus were opened.

Washington.—It is understood here that Canada will co-operate with the United States in raising its selective conscripted army and that the Dominion will bar all Americans between the prescribed ages from its boundaries until registration and drafting is completed unless they can show that their presence is only temporary.

Washington.—The army general staff will be increased at once by the addition of 50 captains and majors, who are to be detailed for work in connection with the new armies. A staff officer will be assigned to each of the concentration camps and others will be sent to France.

New York.—Fifty college athletes were given examinations here today for commissions in the United States marine corps. Among the fifty were a number of well known stars including Harry Legere, John W. Overton and Alex Ferguson of Yale, and Harold Hoskins, Will Jewett and William Eddy of Princeton.

Milan.—An aerial post has been established between Turin and Rome. Aeroplanes capable of making the 325 miles in four hours are being used.

The Hague.—Germany has returned a conciliatory reply to Spain's last submarine protest, says a dispatch from Berlin today. According to this telegram the German Under-Secretary for Foreign Affairs handed the reply to the Spanish ambassador on Saturday. Germany, it was indicated, would exert herself to keep Spain's friendship.

Geneva.—The Wolff bureau, the official news agency of Germany, is striving to embroil Switzerland and the United States, says the Journal today. The newspaper added that the Swiss government is forming a commission to go to Washington to clear up misunderstandings.

London.—The Times in an editorial today advised A. J. Balfour, head of the British mission in the United States, to visit Chicago before his return to this country. Such a trip, it was urged, would naturally arouse further interest in the war in the western part of the United States.

Freight Handler Murdered.

The body of John Ward, a freight handler, was found at Maybrook Friday night and it is believed the man was killed and his body thrown on the tracks. Two suspects are locked up in Goshen jail. It is believed that Ward was an informant in a large robbery and that his murder was committed in revenge by persons accused by his testimony.

Fire Damages Newspaper.

Fire, originating from a cigarette butt, resulted in considerable damage to the Catskill Mail, whose paper stock room was flooded. Smoke and fire damaged the building to the extent of several hundred dollars.

RED CROSS HEARS OF STATE SESSION

Delegates Tell of Need for Work and Workers Together With Other Details of How to Meet Emergency—Mrs. Reed's Unfailing Labors Praised.

Both the executive committee and the finance committee of the Ulster County Chapter of the Red Cross held important meetings at the supreme court chambers on Friday evening. The delegates, just back from the big Red Cross state convention held in Syracuse, told of the sessions of the convention and local business was transacted.

The executive committee was called to order by the chairman, Judge G. D. B. Hasbrouck, and following the reading of the minutes of the last meeting as given by the secretary, Mrs. Fessenden, the treasurer, Joseph M. Schaeffer, stated that there is now in the treasury, available to the chapter, the sum of a little over \$467.

Mrs. T. J. Hickey was the first delegate to tell of the meeting at Syracuse, and in addition to giving a general outline of the meeting and addresses, Mrs. Hickey brought back much valuable information and answered many questions that had been puzzling the local chapter. The 116 delegates were welcomed by the mayor of Syracuse and later were addressed not only by men and women of oratorical ability but of exceptional business acumen, who were trained Red Cross workers. It was stated that two-thirds of the chapters in the state were new chapters. Those present were advised against encouraging small groups of workers, it being thought best that all should work together. All auxiliaries and branches are expected to report to the chapter headquarters at least once a month. A new triplicate card system for members will soon be inaugurated whereby the member will receive one card, the local chapter another and the Washington headquarters the third. This will save a vast amount of work in written reports. Particular emphasis was laid upon the necessity of stinking personality in self-sacrificing work that the most and best may be accomplished. Warning was given of the desirability of leaving efficient chairmen alone to work out their own salvation. Only members of the Red Cross can wear the Red Cross buttons. The Red Cross is not to co-operate in entertainments, and no merchant may use the Red Cross emblem for any form of advertising.

For Civilian Relief.

Mrs. Chandler, chairman of the membership committee, was unable to get back from the conference in time to make her report, which she sent word she would present at the next executive committee meeting. The word was given from Mrs. Chandler, as a few items mentioned by Mrs. Hickey would seem to bear upon the civilian work, especially the emphasis laid upon the present immediate need of rehabilitating France. The Red Cross headquarters would be able to provide the civilian relief committees of the chapters with an index of soldiers in order that they might know where their assistance was needed. A little later a supervising inspector will be sent to instruct the chapters. One thing was made particularly important, that in the Red Cross work there must be absolutely no waste nor delay. Supplies may be secured from national headquarters. Boxes for packing finished articles made by chapters will be accepted if very nearly the dimensions called for without remarking for a fractional inch or so. Men should now be made the chairmen of Red Cross chapters. It is a man's job. No man or woman should have more than two places on committees, etc. Where possible, deal through local merchants. Very soon work will be called for on women's and children's garments. Mrs. Hickey's report, which was accepted with thanks, was summed up with the following instructions to chapters: No con-

tion; no confusion; no waste; no failure. Collect, inspect, pack, stamp, ship at once.
Immediate Need is Work.
Mrs. Fessenden also gave an excellent general impression of the meetings, and spoke with regret that Mr. Staub, director of the Atlantic Division, had been called to Washington. While he merited the promotion, it was too bad that he must be taken from the place where he had proved himself so efficient. The present membership limit set by the national headquarters is 1,000,000 for New York state and 20,000,000 for the United States. According to instructions the secretary will hereafter have openly filed at headquarters the various pamphlets, etc., of interest and information for each working committee to inspect at any time. Wherever work was being well done by any other organization it should be recognized and aided, as the main thing is to have the work done. The immediate need now is to have all completed supplies shipped at once to the Bush terminal that they may be immediately sent to France. The importance of both a canteen and automobile committee for each chapter was noted. Mrs. Fessenden's report was also accepted with thanks.

Resolution of Regret.

The following communication and resolution was then presented by Mrs. Hickey, who was a member of the committee to prepare the same:

To the Chairmen and Members of the Ulster County Chapter of the Red Cross—

Your committee on preparing a minute concerning the retiring of Mrs. Clara N. Reed from the chairmanship of the Ulster County Chapter of the Red Cross, would submit the following resolution:
Resolved, that in accepting the resignation of Mrs. Clara N. Reed from the chairmanship of the Ulster County Chapter of the Red Cross, we express profound regret that other and imperative duties have made it necessary for Mrs. Reed to relinquish the leadership in a work for which she is so eminently fitted and which she has directed from its inception with such constant and untiring fidelity.
Furthermore, we would record our fullest appreciation of the vision, devotion, energy, efficiency and tact with which Mrs. Reed has guided the various activities of the society from its organization and especially during the recent days of its enlarged activities and reorganization to meet the calls of local and national need.

Signed,

CHARLES G. ELLIS, Chairman.

MRS. THOMAS J. HICKEY, Secretary.

MRS. FRED SLAUSON.

Mrs. Reed's Appreciation.

Mrs. Reed expressed herself as overwhelmed with the expressions of appreciation, taking credit for faithfulness only. After thanking those present for their kindly words, Mrs. Reed spoke of the great future of the American National Red Cross, which would be made possible at this time, provided each chapter lived up to its fullest possibilities of unselfish service, following directions from headquarters working together. Mrs. Reed then expressed her sincere gratification that the leadership of the organization, whose work had been so dear to her, had been placed in the hands of one who would, without question, guard its activities with serious and loyal devotion. Judge G. D. B. Hasbrouck, Mrs. Reed then presented the chapter with a copy of the brief history which she had prepared and which appeared in Friday evening's issue of The Freeman.

To Stir Up Enthusiasm.

Dr. O'Meara then spoke briefly of the desirability of more meetings of the Red Cross to create more enthusiasm, and the matter was referred to the membership committee. Mrs. Gordon Reel, chairman. A shipping committee was next appointed by the chair, as follows: Mrs. C. E. Schaeffer, Mrs. Philip Elting, Mrs. T. J. Hickey and Mrs. C. E. Hasbrouck. Mr. Shafer, who is chairman of the box committee, stated that several boxes had been donated, and as soon as the lining paper arrived they would be ready to be filled.

The meeting then adjourned. At the meeting of the finance committee, J. E. Mahan, chairman, a sub-committee composed of Messrs. Washburn, Harrison and Andrews was appointed to confer and report back to the head committee the advisability of creating a war finance committee and enlarging the present finance committee.

An effort will also be made to secure financial representatives from each of the county towns and villages. The work will be more definitely taken up when instructions are received from Washington, at which time the committee will be called by the chair.

OUR DAILY PATTERN.

1631—A Stylish Gown. Ladies' Dress.

This model combines good taste and simplicity. It is nice for festive and tub silk, for serge, nun's veiling, gabardine, poplin, linen, gingham and other wash fabrics. The waist is finished with a coat closing, and has a smart flare collar outlining the low neck edge. The shaping of the sleeve is new and attractive. The skirt fits smoothly over the hips, with fulness gathered at the sides. The pattern is cut in 6 sizes: 34, 35, 36, 38, 40, 42 and 44 inches bust measure. It requires 5 1/2 yards of 44 inch material for a 36 inch size. The skirt measures about 3 2/3 yards at the lower edge.
A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps by the Pattern Department, The Freeman, Rondout, N. Y. Be sure to state the size wanted.

The KITCHEN CABINET

To do our own thinking, listening quietly to the opinions of others, but to be sufficiently men and women, to act always upon our own convictions.—Cred of the Open Road.

A FEW LOW COST DISHES.

To reduce the meat bill combine vegetables with meat and cook them together in various ways, this saves the meat as a small portion with a generous helping of vegetables supplies a good main dish.

Hungarian Goulash.—Seven people may be well served with this recipe: Take a pound of lean beef, half a pound of lean pork, three table-

spoonfuls of drippings or olive oil, one large onion, three cups of boiling water, one teaspoonful of paprika, 12 potato balls, six small button onions, six carrot balls, six turnip balls, one teaspoonful of salt, one bay leaf, one clove, four tablespoonfuls of flour, half a pint of water, and one chopped chili pepper. Slice the onion and brown it in the fat, remove the onion and add the meat cut in small pieces, brown these well, remove the meat to a casserole, add paprika and water, cover the dish and place in the oven. Fry the potato, carrot, turnip and onion balls in hot fat, add them to the meat after it has simmered an hour and a half. Add salt, pepper, cloves, bay leaf and flour mixed with cold water, pour this into the casserole and stir until smooth, add the pepper with a cupful of boiling water. Cover and let simmer for another hour and a half. Serve from the casserole.

Cornish Pasties.—Cut half a pound of mutton into small pieces; add half a pound of peeled diced potatoes, one chopped onion, one teaspoonful of chopped parsley, half a teaspoonful of salt and a quarter of a teaspoonful of pepper and two tablespoonfuls of water. Roll out thin a plain pastry, cut it in large rounds and place a heap of the mixture in the center, wet the edges, press together and crimp with the fingers. Brush each over with a beaten egg and bake in a hot oven for three-quarters of an hour. Serve hot. Any mixture of meat rolled up and tied in cabbage leaves, then cooked for an hour or more makes a delicious dish and adds variety.
Sour milk which has been allowed to sour unskimmed, if sprinkled with nutmeg and brown sugar makes a most palatable dessert.

RED CROSS WEEK PRESIDENT'S PLAN

Secretary Tumulty Telegraphs Judge Hasbrouck of June Campaign for Memberships—High Falls Raises \$200—Other Gifts and New Members.

The following telegram has just been received by the chairman of the Ulster County Chapter of the Red Cross, Judge G. D. B. Hasbrouck:

Washington, D. C.
To the Chairman of Ulster Co. Chapter American Red Cross.

The president has decided that instead of a Red Cross day there shall be a Red Cross week in June. The full plan for his week's campaign will be outlined at a meeting of the chairman of the chapter finance committee at Red Cross headquarters, Friday, May 25, at eleven o'clock. The president would like to have as full an attendance as possible at this conference.

(Signed) JOSEPH P. TUMULTY,
Secretary to President.

The following presents the latest local Red Cross news: The Pearl Gatherers of the Clinton Avenue Methodist Church will meet on Friday afternoon of this week, at 2 p. m., at the home of Mrs. E. O. Hughes, No. 29 Van Buren street, to do Red Cross sewing. The Ladies' Aid Society of the First Presbyterian Church will meet at the same place on Thursday afternoon, and as there are two sewing machines in readiness for work, a full attendance is desired.

High Falls Progress.

Mrs. Hutchins of High Falls was at Red Cross headquarters on Saturday and reported splendid progress in Red Cross work in that community. Over \$200 has been contributed and Company C has raised \$80 in membership dues. They are most enthusiastic and will do all in their power to help the Red Cross work.

The Fuller Shirt Factory has just contributed the appreciated service of cutting out 21 bath robes to be made up. This factory and that of Tomasi Brothers (Armenians) and deeply interested in the war will make all buttonholes in hospital garments by machinery and free of charge.

The following gifts have been received in this city: Junior Ladies' Aid Society, St. James's M. E. Church, \$2; William R. Harrison, \$10; Roundout Lodge, No. 343, F. and A. M., \$10; Knights of Columbus, \$5; Mount Horeb Chapter, No. 75, R. A. M., \$5; Mrs. George Coykendall, for yarn, \$5.

New and renewed members are William R. Harrison, Miss Mildred Harrison, Miss Margaret Keefe, Miss Mae Kline, Nicholas Penillo, Miss Ruth Smith, Mrs. James B. Wood, Miss May E. Wood, Miss Margaret Merritt.

Cosmopolitan City.

The days in Canaan are unpleasantly hot, but in the evening representatives of all the nations of the earth come forth to drink coffee and smoke water pipes at the little cafes with tables on the pavement. The call of the muezzin resounds from the mosque bidding the faithful pray and mingling with jest and story in a dozen skeptical voices. Canaan is easy-going, surprised at nothing. She gives the impression that anything can happen there; and as a matter of fact more things do happen in Canaan than ever are known to the world.

NEW BLOUSES.

Distinctive Points About the Late Spring Models.

One of the unusual features of the new blouses is the use of gingham and of dish toweling. To be sure, the latter is of the aristocratic type, made of linen and having crossbars of blue or red threads and mainly associated with the drying of fine china and silver.

Both gingham and linen models are intended to wear with the sports skirt of washable fabrics or of silk or jersey cloth. They are made on tailored lines, but it is permissible to have them trimmed with cross stitching in linen threads or with bands of rather heavy fillet lace.

Another sort of blouse that is out of the ordinary is made without sleeves and is fastened down the back. It is very likely that it will be worn with a glimpse by the normal woman. But for those who like freedom of the arms for tennis or golf and who do not mind sunburn the sleeveless model will prove very acceptable.

Back fastened blouses have come into favor again. They are found not only in the waist length models, but also in the peplum effects, which have gained somewhat on the vogue established for them last fall. Many of them are nothing more or less than Russian blouses, and, while some of them are made with deep collars, there are others that are without the neck finish, excepting for a Chinese band.

A vagary of fashion has brought about a revival of the high neck blouse for spring. Surely it would have seemed more logical to have withheld this type until fall, when the more seasonable period would have tended to popularize the resuscitated model. However, there are women who profess to be a little bit tired of the blouse built with the big collar and the open V neck and who will doubtless patronize the old-new type.

For more dressy wear there are blouses of chiffon lace, principally in white and mounted in white and flesh colored mousseline. A model that has recently arrived from Paris shows the front cut much longer than the back to give an apron suggestion. The blouse is a bit short waisted and is belted in by a wide rose colored ribbon tied in a pump bow, this treatment being repeated at the back where the lace drops below the waist line to form a postilion.

MOTHER'S PRIDE.

blouse belted with wide black velvet ribbon. The slits give a vestee effect, and the front otherwise closes diagonally with two tone buttons.

Sport Colors.

Pumpkin yellow, Chinese orange, topaz and Roman gold are the choice shades of yellow.

Fuchsia red, Japanese scarlet and Indian crimson are the vivid shades of red that will be used for ornamentation.

In blue there are marine, navy, Egyptian and especially Chinese.

In green there are jade, nille, bottle and chrysoprase.

Before Buttonholing.

Great difficulty is often experienced in trying to keep the edges that are to be buttonholed from fraying. The best thing to do is to run a line of machine stitching along the line to be buttonholed. This will not only prevent the goods from fraying before and during the work, but will insure a stronger and neater effect after it is buttonholed.

Wanted Credit for It.

"What makes that hen of yours cackle so loudly?" inquired Jenkins of his neighbor. "Why, they've just laid a cornerstone for the new parish room across the road and she's trying to make the neighbors think she did it."

Buy a Liberty Bond. One does not have to be wealthy in order to do his bit and purchase one or more of these bonds. Sold in denominations of fifty dollars, the bond or bonds may be bought upon the installment plan. Only instead of like other articles bought on easy payments, these will draw interest regularly and when paid for will be just as good as when new, a condition seldom true of any purchase made under similar terms. No safer investment could be made than these bonds; no more patriotic action could be taken than to buy one or more of them. It is the desire of the Administration to have these bonds taken up by the people of small means in so far as is possible rather than to dispose of them in large blocks to the big financial institutions. All persons interested in securing one or more of these bonds are urged to apply to his or her local bank where information will be furnished. This should be done at once as the bonds will soon be ready for delivery and it is important that the allotment be taken up as promptly as may be found practicable.

The reports indicate that the Germans still fail to take a serious view of American participation in the war, regarding the United States, according to one correspondent, as not much more important than Portugal or China. Yet this curious attitude in German military circles admits of the concession that the United States will eventually produce one of the greatest armies of the world. But even this prospect is not taken seriously, the Germans being persuaded that the coming American army is not designed for extensive use against Germany and that its real purpose is "the defense of America against Japan." Obviously the figures alone compel the Germans to recognize the possibility of a really great American army sooner or later. There are now in this country more than ten million men between 21 and 30 years subject to selective draft under the new army law. This is only ten per cent of a population, which is now between 103 and 104 millions, and only five per cent of the males between 21 and 30 years will be subject to selection in the first call for 500,000 men. The number of further calls will depend on the course of events, but, if need be, there can be as many as nine more armies of 500,000 each even if only half of the males of the proposed age should be physically fit.

It is interesting to note in detail the number of men liable under the new law in the various States. Taking some of them more or less at random, we find that Massachusetts has 355,400 men subject to call; Rhode Island, 60,300; Connecticut, 109,500; New York, 1,568,000; Pennsylvania, 874,000; Maryland, 121,500; New Jersey, 300,200; Virginia, 186,400; West Virginia, 141,500; North Carolina, 194,400; South Carolina, 137,100; Georgia, 253,400; Texas, 420,200; Oklahoma, 213,500; South Dakota, 80,500; Iowa, 199,000; Minnesota, 244,700; Wisconsin, 299,500; Illinois, 639,500; Ohio, 494,300; Indiana, 253,600. Our five States with the largest populations, New York, Pennsylvania, Illinois, Ohio and Texas, alone contain 3,496,000 men liable under the army bill, and there are 1,097,300 young men subject to call in our three largest cities of New York, Chicago and Philadelphia alone. Certainly we have the men as well as the wealth to prosecute war on a great scale.

The country has been told that heroic France is now using up her last strength and that England will be lost if the necessary aid does not reach her from America within eight months. After making due allowances for exaggeration, no doubt there remains enough truth in these statements to reveal the urgent need of raising a great American army and of providing means of carrying food to our allies with the utmost speed. The difficulties appear to be increased by the reported short crop of winter wheat, this together with the late cold spring suggesting that nature itself has decreed temporary obstacles. There is all the more need, therefore, of intelligent, sustained and redoubled effort with a view to make up the shortage in other ways and to dispose quickly of other obstacles.

There is no reason for pessimism. That is the resort of weaklings and has no place in the minds of the strong. A nation of determined workers can not be dismayed even by a giant task. We have undertaken to help free the world from a great affliction, from even the prospect of lost liberties and permanent tyranny, and we shall go steadily forward because we must for our own country's sake as well as for that of humanity. The undertaking is greater than many of us had expected, but it is better that we should know the worst at the outset, while our plans are being formed, than that the revelation should come later. To be forewarned is to be forearmed. The task is great but the desired outcome is sure.

"My goodness, yes," he said. "I speak it like a native, sir."—Washington Star.

A NOVEL U. S.

The greengrocer conversed in low tones with a customer who was before him. Then he called out "Two of U. S." Presenting a small bag was handed up from the cellar; the customer took it, and hurried off. I knew that it contained potatoes, but I was puzzled about the "U. S." and scented a new addition to that wonderful back-slang which is employed by greengrocers, fishmongers, and other trading folk—back-slang often invented by the simple process of spelling a word backwards. So I asked the greengrocer why he called potatoes "U. S.," and he told me. The two letters stand for the most precious commodity in which greengrocers just now deal—underground strawberries!—Manchester Guardian.

All the Comforts of Home.

Before the lesson at the mission study class the other night the station agent remarked that two elephants had come over the Wabash that day, and that the car that carried them had two hot boxes. Now the boys in the class understood right away that the car axes had been insufficiently oiled and the grease in the boxes had caught fire; but one of the girls—

"Why, who'd ever thought that they'd put in foot-warmers for those poor elephants?"—The Christian Herald.

Wind Velocity.

Some builders of windmills estimate that a wind of 16 miles an hour may be expected for eight hours per day on the average for every day in the year. This does not mean that such a wind can be relied upon every day in the year, but that the average wind all the year around would equal 16 miles an hour for eight hours every day.

Needs of the Child.

The child needs the kinds of food that make blood, bone and muscle so he should always have cereal for breakfast. Cornmeal is excellent and oats are favorites with a nation noted for its good health, the Scotch. Here is what the doctor says about milk: "The child may not like milk—he should be encouraged to try it in various ways. The growing child needs milk, all of it, and the skimmed variety does not answer the purpose at all. The fat plays an important part in the development of the little body."

Eyeglasses for Diver.

A new eyeglass has been patented for the use of submarine divers. It is well known that the human eye does not function properly under water, objects appearing badly blurred and distorted. This is due to the fact that the speed of light in water is different from the speed of light in air, and hence the light rays enter the eye with a different angle of refraction. The eye, being designed for focusing rays coming through the air is unable to focus rays coming through the water.

ROXBURY DOCTOR KILLS HIMSELF

Dr. Harry Keator, one of the most prominent and capable surgeons and doctors of Delaware county, committed suicide Sunday morning at his home in Roxbury by shooting himself in the head. Death was instantaneous. For some time he had been in ill health and on Saturday he probably planned for the act which was committed some time during the morning Sunday. A number of personal papers and letters he burned Saturday and Sunday morning; he lay down on a couch and holding a revolver close to his head he pulled the trigger. The bullet lodged in his brain entering just back of the ear.

Dr. Keator was about forty years old and was one of the best known and competent physicians and surgeons in that part of the county. He had been a resident of Roxbury all his life where he had a large practice and was regarded as one of the most capable doctors in the county.

When he was found about 10 o'clock Sunday morning, some time after the shot had been fired, he was fully clothed and had evidently planned the act and prepared for it for some time.

Dr. Keator is the son of the late Charles and Rose Keator and had always lived in Roxbury. Two sisters Miss Anna Keator, a nurse of New York city and Mrs. Richard Ives of Roxbury survive.

COMPANY M WANTS SEVENTY RECRUITS

New Orders Direct Filling in Vacancies and Bringing Company Up to War Strength of 150 Men—New Pay Scale Attracts.

Orders were received by Captain Frank L. Meagher of Company M, Tenth Regiment, Saturday night to at once recruit the company up to war strength of 150 men. This means that seventy men are needed at once at the armory and every man liable to conscription is urged to join now and thus avoid transfer to other companies as may be the case under conscription. The term is for the duration of the war instead of the usual six year period.

That the National Guard will probably see service in France soon after, if not coincidentally, with the regular army is the belief of guard officers. The New York division stands at the head of the National Guard and this summer will probably see New York troops recruiting up to full war strength and being prepared for foreign service ahead of Plattsburg and the conscript army to be assembled in September. Under the new recruiting order which comes from division headquarters in New York, Captain Meagher will send in daily reports of the recruiting campaign, which will be inaugurated at once. The new pay scale of \$30 a month, with subsistence and clothing, makes the service especially attractive and it is believed a number of Kingston and Ulster county young men will join with the home organization, rather than run the chances of being shifted about with units from other states as likely under conscription.

The Tenth Regiment Band has now been recruited to full strength and numbers some first class musicians, five of these coming from Kingston.

Parent Teachers Elect Officers.

The meeting of the Parent-Teachers' Association of School No. 6, held this week at the school was the last to be held this season, and was in the nature of an annual meeting. Officers were elected as follows: President, Mrs. Meagher, vice-president, Mrs. Clark, secretary-treasurer, Mrs. Bonestell. There was a very large attendance at the meeting, there being some sixty mothers and teachers present. Mr. Kidney entertained the gathering with a very interesting lecture on "Boy-mania." One of the especially interesting features of the meeting was the exhibition of sewing and manual training and weaving, done by the pupils. The exhibit was remarkably fine, showing most careful training on the part of the teachers.

Musical Banquet.

The choir of the Trinity M. E. Church entertained the music committee of that church at a banquet in the lecture room of the church on Wednesday evening of last week. It was a most delightful affair, there being some 47 guests present. Brief addresses, in the nature of toasts were made by Monroe Burger of the music committee, Randolph Weyant, representing the junior choir; Miss Eva Schook and George Lowe, each representing the senior choir; Dr. Bell and pastor Weyant also addressed those present, and solos were sung delightfully by Miss Knapp. The success of the affair was due in large measure to the efforts of Miss Ethel Maisterstock, the efficient choir director.

Father and Son Die Same Day.

August Koch, a Poughkeepsie tailor, died at his home there Saturday morning from asthma and dropsy, a few hours later his son, William, died of pneumonia in the same house after a short illness.

Animal's Influence On Man.

It would be hard to estimate the influence animals have had upon man. From the earliest dawn of civilization animals have been kept for various purposes and they have always exerted considerable influence upon man's life and character.

WINNERS MAY GO TO HEAR BILLY SUNDAY

The Young Men's Bible Class of the Clinton Avenue M. E. Church, known as the Winners, are planning to conduct an excursion to New York city some time during the early part of June and attend the Billy Sunday revival meeting at the tabernacle. No definite plans have yet been made but the young men will arrange to secure the steamer Mary Powell and if arrangements can be made for reservations at the tabernacle the excursion will probably be held either on Tuesday, June 5 or 12.

The plans as discussed by the class Sunday provided for the chartering of the steamer Mary Powell to leave Rondout at about 8 o'clock, arriving in New York shortly after noon. The boat will land at 129th street, which is near the Sunday tabernacle. Reservations will be arranged for at the tabernacle for the Kingston delegation and coupons attached to the steamer tickets will entitle the holder to a reserved seat. The boat will leave 129th street at about 5:30 o'clock which will give the people ample time to reach the boat by elevated train from the tabernacle.

Not only will the excursion give Kingston people an opportunity to hear the famous evangelist but any one desiring to make a shopping trip to the metropolis will find this an excellent opportunity to make the trip by boat. The excursion will be made under the auspices of The Winners Class of the church and plans and final arrangements as to dates and time will be made known as soon as the committee hears from Billy Sunday's manager as to when reservations can be made.

KENNEDY JONES.
WORKMEN MUST HAVE MALT LIQUID.

The question of whether British workmen must give up their beer is puzzling the English Ministry of Food, according to Kennedy Jones, M. P., director of food economy. Mr. Jones has issued this statement:

"Whether the brewing of beer shall be stopped at once and the barley already malted used for mixing with flour is a question of policy, and hinges on the point whether the malt in bread or in beer will secure the most efficient prosecution of the war."

"Unlike America, beer has been for centuries a part of the daily diet of our working classes. The first duty and the first effort of those responsible for the ordering of public affairs is to secure a maximum output of work for the prosecution of the war from all workers."

"A great number of men engaged in very heavy manual labor—as for example men working at blast furnaces—must drink considerable malt liquid. This is not only a practical fact, it is a scientific fact. The bulk of these men are in the habit of taking that liquid in the form of beer. The question is not whether cold tea would be better for them, but what would be the effect on the output of work by suddenly cutting off their supply of beer."

"Also it is well to bear in mind that if the worker is not deriving part of his energy, as has been his habit, from beer, he may require more bread, so that practically no actual saving of bread could be effected."

"Off For The Trenches" Successful.

The play, "Off for the Trenches," given at the high school Friday evening for the full benefit of the Ulster County Chapter of the Red Cross, was a big success in every way. The play delighted the audience which was a good sized one, the acting

being so excellent that it would be quite unfair to make special mention of any particular character. The play was brought to a very pretty and quite spectacular close with a patriotic tableau, including the American flag carried by a boy scout, the characters grouped about in artistic manner, while with the unfurling of the flag the audience arose and joined in the singing of America. The music by the Musicians' Union was fine and added much to the entertaining features of the evening, as did Mr. Tinnie's impersonations of Harry Lauder. Too much praise cannot be given Miss Niemont Hewitt, who worked so indefatigably, with many assistants to make the success of the affair, nor to Mr. Richards whose coaching made the play so realistic. RED CROSS WEEK PRESIDENT'S PLAN

Secretary Tumulty Telegraphs Judge Hasbrouck of June Campaign for Membership—High Falls Raises \$200—Other Gifts and New Members.

The following telegram has just been received by the chairman of the Ulster County Chapter of the Red Cross Judge G. D. B. Hasbrouck:

Washington D. C.
To the Chairman of Ulster Co. Chapter American Red Cross

The president has decided that in stead of a Red Cross day there shall be a Red Cross week in June. The full plan for his week's campaign will be outlined at a meeting of the chairman of the chapter finance committee at Red Cross headquarters Friday May 25 at eleven o'clock. The president would like to have as full an attendance as possible at this conference.

(Signed) JOSEPH I. TUMULTY
Secretary to President

The following presents the latest local Red Cross news. The Pearl Gatherers of the Clinton Avenue Methodist Church will meet on Friday afternoon of this week at 2 p. m. at the home of Mrs. T. E. Oughelree No. 29 Van Buren street to do Red Cross sewing. The Ladies Aid Society of the First Presbyterian Church will meet at the same place on Thursday afternoon and as there are two sewing machines in readiness for work a full attendance is desired.

High Falls Progress.
Mrs. Hutchins of High Falls was at Red Cross headquarters on Saturday and reported splendid progress in Red Cross work in that community. Over \$200 has been contributed and Company C has raised \$80 in membership dues. They are most enthusiastic and will do all in their power to help the Red Cross work.

The Ulster Shirt Factory has just contributed the appreciated service of cutting out 21 bath robes to be made up. The factory and that of Thomas Brothers (Amherst) and deeply interested in the war will make all buttonholes in hospital garments by machine and free of charge.

The following gifts have been received in this city: Junior Ladies Aid Society St. James M. E. Church \$5; William R. Harrison \$10; Ron doir Lodge No. 343 P. and A. M. \$10; Knights of Columbus \$5; Mount Hermon Chapter No. 4 R. A. M. \$5; Miss George Condit for \$10.

and renewed members are: William R. Harrison, Miss Mildred Harrison, Miss Margaret Koefie, Miss Mae Kline, Nicholas J. Lepore, Miss Ruth Smith, Mrs. James R. Wood, Miss May E. Wood, Miss Margaret Merritt.

NEW BLOUSES.

Distinctive Points About the Late Spring Models.

One of the unusual features of the new blouses is the use of gingham and of dish toweling. To be sure, the latter is of the aristocratic type made of linen and having crossbars of blue or red threads and usually associated with the drying of fine china and silver.

Both gingham and linen models are intended to wear with the sports skirt of washable fabrics or of silk or jersey cloth. They are made on tailored lines but it is permissible to have them trimmed with cross stitching in linen threads or with bands of rather heavy fillet lace.

Another sort of blouse that is out of the ordinary is made without sleeves and is fastened down the back. It is very likely that it will be worn with a gaiter by the normal woman. But for those who like freedom of the arms for tennis or golf and who do not mind sunburn the sleeveless model will prove very acceptable.

Back fastened blouses have come into favor again. They are found not only in the waist length models but also in the peplum effects which have gained somewhat on the vogue established for them last fall. Many of them are nothing more or less than Russian blouses and while some of them are made with deep collars there are others that are without the neck finish excepting for a Chinese band.

A vagary of fashion has brought about a revival of the high neck blouse for spring. Surely it would have seemed more logical to have withheld this type until fall when the more seasonable period would have tended to popularize the resuscitated model. However there are women who profess to be a little bit tired of the blouse built with the high collar and the open V neck and who will doubtless patronize the old new type.

For more dressy wear there are blouses of charming lace principally in white and mounted in white and flesh colored mousseline. A model that has recently arrived from Paris shows the front cut much lower than the back to give an apron suggestion. The blouse is a bit short waisted and is belted in by a wide rose colored ribbon tied in a jump bow. This treatment being repeated at the back where the lace drops below the waist line to form a postilion.

blouse belted with wide black velvet ribbon. The skirt gives a vester effect and the front otherwise closes diagonally with two tone buttons.

Sport Colors.
Pumpkin yellow, Chinese orange to pax and Roman gold are the choice shades of yellow.

Fuchsia red, Japanese scarlet and Indian crimson are the vivid shades of red that will be used for ornamentation.

In blue there are marine navy, Egyptian and especially Chinese.

In green there are jade, milie, bottle and chrysoprase.

Before Buttonholing.
Great difficulty is often experienced in trying to keep the edges that are to be buttonholed from fraying. The best thing to do is to run a line of machine stitching along the line to be buttonholed. This will not only prevent the goods from fraying before and during the work but will insure a stronger and neater effect after it is buttonholed.

Wanted Credit for It.

"What makes that hen of yours cackle so loudly?" inquired Jenkins of his neighbor. "Why they've just laid a cornucopia for the new parish room across the road and she's trying to make the neighbors think she did it."

MOTORCYCLE KNOCKS DOWN TWO WOMEN

Mrs. Harry Simon and Mrs. Jack Margolis Injured When Run Into by Machine of William Diehl on Broadway Sunday.

Mrs. Harry Simon of 21 Ann street and Mrs. Jack Margolis of 16 Chambers street, are confined to the Benedictine Sanitarium with injuries received on Sunday at noon when they were run down by a motorcycle driven by William Diehl of 26 Spring street, Newburgh. Mrs. Simon was the most seriously injured of the two, having her nose fractured and a bad scalp wound. She is also bruised about the body. Mrs. Margolis was also injured about the head and bruised about the body.

At the time of the accident the two women were walking on Broadway just above Abel street, near McTague's news store. Diehl driving a big Indian motorcycle was coming out of Abel street, intending to turn up Broadway. His machine was not running over 15 miles an hour as he had to slow down to make the turn into Broadway. He was unable to turn, however, and his machine crashed into the gutter and up onto the sidewalk, hitting the two women. Mrs. Simon was nearest the machine and received the full impact of the blow.

Mrs. Simon was taken into Ginzburg's drug store where Mr. Ginzburg and Carl Weber, who was drawn to the scene by the accident, applied first aid and was taken later by Mrs. Margolis to the Sanitarium by Dr. John F. Larkin, who is attending them.

Officer Walsh placed Diehl under arrest and took him to the city hall, where a technical charge of speeding was lodged against him. Mr. Diehl, who is a young man, left his motorcycle for his appearance before Recorder Lang this morning, at which time the hearing was adjourned for two weeks. City Judge W. D. Brinley appeared in behalf of the injured women.

Diehl was one of a party of motorcycleists who were making the run from Newburgh around the Ashokan reservoir.

CAPT. HUSTON
CAPTAIN HUSTON EXISTS IN THE ARMY.

Captain T. L. Huston, part owner of the New York American League Club, on a recent visit to Chicago, expressed to President Johnson his regrets at having to withdraw for a time from the American League family circle. Captain Huston, who served the United States in the Engineer Corps during the Spanish war, enlisted for the same branch of the service and received notice to report immediately for duty at Detroit.

Ananias.

The name Ananias is in dispute because of the liar of that name mentioned in the fifth chapter of the Acts of the Apostles. Two others of the name are mentioned in the Scriptures. One of these was a high priest in A. D. 48 who was afterward assassinated; the other was a Jewish disciple at Damascus. Tradition makes him to have been bishop of Damascus and to have died by martyrdom.

Marriage in Argentina.

In the Argentine republic if a man engaged to marry hesitates beyond a reasonable time in leading his fiancée to the altar he is heavily fined, and if a resident of the republic should fail to marry he is taxed until he reaches the age of eighty.

SAVE THE TREES.

The White Pine Blister Rust and a Warning and an Appeal.

The American Forestry association has issued a warning and appeal for co-operation in fighting the disease known as the white pine blister rust that threatens the destruction of all the white pine and other five leaved pine trees in the United States.

This disease has already appeared in Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania, Wisconsin, Minnesota and in Quebec and Ontario.

There is no known cure for it. It kills the white pines infected, and it spreads steadily. The spores or seeds are blown from diseased pines to currant and gooseberry bushes. They germinate on the leaves of these bushes. The leaves then produce millions of spores or seeds of the disease, which are blown by the wind from the bushes to the pines, and these, even those several miles distant from the nearest bushes, are infected, become diseased and die.

The white pines in New England are worth \$75,000,000. In the lake states \$60,000,000. In western states \$60,000,000 and in the national forests \$30,000,000, or a total of \$165,000,000.

Unless the ravages of the white pine blister rust are stopped these pines will be destroyed.

The American Forestry association urges people in all the regions where the disease has been discovered to destroy at once all currant and gooseberry bushes, diseased pines and others exposed to infection. This will help stop the spread of the disease.

The great forests of dead and dying chestnut in Pennsylvania, New Jersey, New York, Connecticut and Massachusetts stand today mute but convincing witnesses to the fact that such diseases must be checked, if at all, in their early stages.

The pine growth of this count is far more valuable than the chestnut ever was, and the damage the blister rust may do is accordingly greater than the injury that has been or can be wrought by the chestnut blight. But experience proves that the ravages of the blister rust can be, if taken in season, stopped much easier than the chestnut blight. In a number of places where started it has been nearly or entirely eradicated. May the pine forests of America be saved and not neglected as the chestnut until it is too late—Tree Talk.

Musical Vibrations.

We can take the scale of vibrations, beginning with the shortest wave lengths that have been measured—the gamma rays given off by radium, which are only about one one-hundredth of a millimeter long—and ending with the longest known electromagnetic waves, 10,000 meters or more in length, and arrange them in a scale of octaves like the musical scale. In the Scientific Monthly Professor David Vance Outburis of the Louisiana State university says they will cover just about forty-eight octaves, of which the rays that are visible to our eyes comprise but one.

Wrens Good Insect Eaters.

The wren, according to A. A. Saunders of Norwalk, Conn., is a valuable and interesting bird. It has a cheerful song, and during the summer months it sings almost incessantly. Its food is largely insects. A pair of wrens will work from daylight to dark during long June days gathering caterpillars and other harmful insects to feed their young. I have known them to visit the nest with insects on an average of three times in five minutes. The number of insects destroyed by a pair of wrens and their young in a season is enormous.—Tree Talk.

The Constitution.

The constitution is either a superior paramount law, unchangeable by ordinary means, or it is on a level with ordinary legislative acts and, like other acts, is alterable when the legislature shall be pleased to alter it.

Certainly all those who have framed written constitutions contemplate them as forming the fundamental and paramount law of the nation, and consequently the theory of every such government must be that an act of the legislature repugnant to the constitution is void.—Chief Justice John Marshall.

Judging a Potato.

A good potato should be firm and crisp when cut, and a thin cross section when held between the eyes and the light should show a relatively uniform distribution of starch throughout its whole area, as opposed to a large, translucent, watery central area, which denotes a lack of starch in this portion of the tuber. The even distribution of starch insures greater uniformity in cooking and in texture of the flesh when cooked.

THREE PITCHERS ACT AS PINCH HITTERS

TWIRLERS WHO ARE HEAVY HITTERS.

The old idea that a pitcher couldn't hit is being rapidly dissolved.

Ray Caldwell is the main pinch hitter of the Yankees.

Walter Johnson is the leading pinch hitter of the Nationals.

But the premier bird of them is Babe Ruth of the Red Sox. Ruth is probably the best hitting pitcher that baseball has ever known. George Sisler started out as a pitcher, and he may have challenged Ruth's title, but not even the Brownie star is as feared as the big left-hander on the Red Sox staff. He is not only a consistent batsman, but he is as likely to crack one over the fence or up into the stands as any man in baseball.

Last season Ruth had as many home runs as Tris Speaker or Joe Jackson, two of the game's leading sluggers, who played in almost three times as many contests.

TO PAY LARGER PRICES

Club owners in the major leagues expect to pay an additional \$2,000 for hotel bills this season. Several of the club presidents have been notified that some of the hotels where their teams stopped have found it necessary to raise their rates 50 cents to \$1 a day for each man. The clubs usually carry about twenty-five men on the road, and this will mean the payment of \$15 to \$25 additional each day, or about \$2,000 for the season.

MACK'S GOOD HITTING TEAM

Philadelphia. Speaks Enthusiastically of Athletics' Chances—No Slacker in Bunch.

James W. Gantz, a Philadelphia writer, speaks enthusiastically of Connie Mack's chances for a good hitting team. Here is what he has to say: "From the way that the Athletics have been handling their bats and recalling their reputation as minor league sluggers, there is every reason to believe that Connie will put on the field this year a team which in hitting strength will be the equal of any that has ever had. Every man who is counted upon for a regular position in the infield or the outfield knows how to handle his bat. There isn't one of them who, to use the language of the players, puts his foot in the water pocket. There isn't a batting slacker in the bunch. Every man faces the pitcher fearlessly and steps into the ball instead of pulling away from it. Connie had the minor leagues combed for hitting talent last year, and he appears to have landed what he sought."

LEGORE TURNED DOWN OFFER

Inform President Phil Ball of St. Louis Browns That He Wouldn't Play Professional Ball.

Harry Legore, football and baseball star of Yale university, has refused a contract with the St. Louis Americans. He was offered a position at the close of the present college year. Phil Ball, president of the club, said Legore had informed him that he would not play professional baseball for \$50,000 a year.

Harry Legore.

gore had informed him that he would not play professional baseball for \$50,000 a year.

There is no doubt that this famous athlete, were he so inclined, could take his place as one of the greatest players in the game, but he prefers the khaki.

To Cleanse Bottles.

To cleanse bottles that have held oil place ash in each bottle, cover with cold water and heat gradually. Let the water boil for about one hour, then allow it to stand until cold. Wash the bottles in soapy water, then rinse.

DIAMOND NOTES

Those Cardinals are playing a good game of ball.

Dillinger, the new catcher of the Chicago Cubs, seems to be a find.

Barney Dreyfus says he is not discouraged over the showing the Pirates are making.

If some ball players were permitted to filibuster, one ball game would last all summer.

Mike Massey, playing second for the Braves in the absence of Evers, is a smooth and tidy workman.

The National league twirlers are now restricted to three throws in warming up before innings.

Some baseball clubs play so mechanically that they ought to be operated on the nickel-in-the-slot basis.

It's pretty tough on a guy who is both a baseball and boxing fan. The poor fish never gets a vacation.

Pittsburgh fans are pulling strongly for Jimmy Callahan in his efforts to build up a winner in the Smoky city.

The Athletics are moving up in the standings and Manager Mack's men will certainly bear watching this summer.

Pitcher Fred Herbert, former Giant and Brooklyn Red twirler, has announced his retirement from the game.

Robert Quinn, efficiency expert of the Browns, so far has confined his efficiency expertise to the business office.

H. B. (Happy) Harrison, formerly a well-known minor league player, has been elected city clerk of LaPorte, Tex.

In addition to being a golf caddy, Jack Adams, of the Quakers, once was a chauffeur, although he held the job for only a few days.

Dave Bancroft of the Phillies was once a candy butcher; that is, he sold refreshments, fruit, candy and newspapers on a railroad train.

Can't blame the fans if they don't turn out this season to the games of the tail-end clubs. The submarine peril is something awful.

Ray Richmond, a pitcher who had a trial with the Birmingham Three-I league club, has quit baseball and joined the army aviation service.

Gary Fortune, the youth from North Carolina, is the soldier pitcher of Pat Moran's squad. He belongs to the National Guard at Asheville, N. C.

Pitcher Hub Leonard of the Red Sox is making good headway in his argument that he can pitch good ball even if Bill Carrigan is not there to catch him.

Ping Bodie, with the Athletics, is making good his promise to "show up Callahan." Ping is staging a real comeback and his hitting is a big figure in what success the Athletics are having.

How Many Do You Eat?

An expert in statistics has calculated that a woman marrying at twenty, and caring for a family of four children until she is forty-five, will peel no fewer than 83,000 potatoes for home use.

JAPANESE TROOPS REPORTED LANDED IN FRANCE.

THREE WINGED WORDS.

How the Famous Expression "Swat the Fly!" Originated.

Once upon a time there was a man with a large assortment of ideas, and he went to a baseball game to find surcease from thought in the crack of the bat and the long hit. Now, the particular idea that had been buzzing the common housefly and how to make it uncommon.

He never could look at a fly without feeling a cruel desire to squash it. He was, in fact, about to publish a health bulletin indicting the fly on more counts than the fly has eyes, and it has several thousand and fifty. Well, when he got to the game and had just rid himself of the whole notion for a moment and was eagerly awaiting action on the part of the batsman somebody—in fact, a lot of them—shouted, "Swat the ball!"

The batsman did. He strangled the fly.

prettiest fly any fan would ask to see. And then while the crowd roared the fly hater took out a pencil and scribbled on a bit of paper those three winged words that were destined in the months that followed to fly around the world and back again, "Swat the fly."

The man was Dr. S. J. Crumrine of Kansas—J. Wainwright Evans in National Business.

Spiking the Guns.

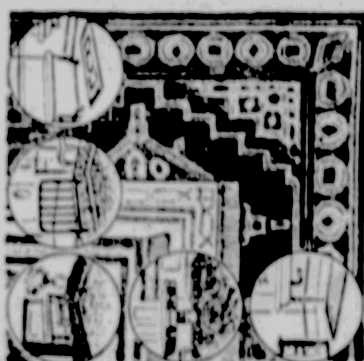

The expression "spiking the guns" is a survival from the day when all that was necessary to put a gun out of action (provided, of course, that you had access to it) was a large nail or spike and a hammer. You simply drove the nail into the touch hole at the breech. If the nail was long enough to turn round at the end on the bottom of the bore so much the better. It is just as simple, perhaps simpler, to put a modern gun out of action. All you want is a hammer. The breech block of the

threads. After the breech block is shut on the shell a turn of two or three inches engages the threads. By knocking a bar on these threads you prevent them engaging. Any attempt to fire the gun without the breech block being perfectly closed would, of course, be of material assistance to the enemy.

An Ancient Infernal Machine.

In the Diary of Samuel Pepys, under date of March 14, 1692, he says: "Home to dinner. In the afternoon came the German Dr. Knautler, to discourse with us about his engine to blow up ships. We doubted not the matter of fact, it being tried in Cromwell's time, but the safety of carrying them in ships; but he do tell us that when he comes to tell the king his secret, for none but the king, successively, and their heirs must know it. It will appear to be of no danger at all. We concluded nothing, but shall discourse with the Duke of York tomorrow about it."

DRY ULSTER IS THEIR GOAL.

Temperance Forces Arrange Meet-
ings—Mr. Howard to Speak.

The temperance forces in this
county are uniting in an effort to
make Ulster county, like the ad-
joining county, Delaware, dry. The
Ministerial Association of this city,
the W. C. T. U., some of the
Grangers, the Citizens' League and
the County Sunday School Asso-
ciation have united in securing for
ten or twelve days' work, Frank E.
Howard, better known as ex-convict
11221. He will begin his work in
the county Thursday, May 24, and
close Sunday, June 3.

A tentative program has been ar-
ranged. Thursday night, May 24, at
union service in the Presbyterian
Church, Marlborough. Friday eve-
ning, May 25, Grangers' Hall,
Gardiner. Saturday evening, May
26, Grange Hall, Lake Katrine.
Sunday May 27, he will speak in
this city, 10:30 a. m., Albany Ave-
nue Baptist Church; evening union
service downtown. Tuesday evening
he will be at Ellenville; Wednesday
evening, May 30, at Stone Ridge
Grange Hall; Thursday, May 31, at
Port Ewen; Friday, June 1, Sauger-
ties; Sunday, June 3, in Kingston.

While other phases of temperance
work will be essential, this is in-
tended as the opening of the No
License Campaign. For the first
time in its history the city of
Kingston will have a chance to vote
out the saloon.

It is true that we may have na-
tional prohibition before that time,
as a war measure, but the forces
that stand for temperance do not
propose to lose any opportunity to
make the home county dry.

Mr. Howard comes with the
highest recommendation. He has a
message that stirs men. We are in-
formed that at a meeting in Middle-
town a few weeks ago 1250 crowded
the room where he spoke, and hun-
dreds were turned away. It is ex-
pected that he will stir Ulster county
as it has never been stirred before.

bers, Melvin Barringer motored to
Kingston Saturday. They called at
the hospital to see Kenneth Barley,
who is there in a critical condition.
The wishes of his friends are that
he will soon recover.

Wave a flag for the mothers who
gave their dear boys to free our
beloved country, as they did of old.
Let us not forget the past as that
will not do. Wave your flag for the
dead that gave freedom for you.

Wave your flag for the boys in
light tan. It will give them more
courage.

Let us hang out our flags for the
brave and the true that has gone to
the front now for me and for you.

The red is for the brave, the blue
is for the true; there is no flag that
waves like our Red, White and
Blue.

BEER contains about
92 per cent. water and about
5 per cent. of extract derived
from hops and cereals prin-
cipally Barley malt and
only about
3 to 4 per cent. alcohol.

What is Beer?

Notwithstanding
the fact that beer has
become the most
popular beverage of
the United States, a
vast number of well-meaning people, who are thor-
oughly versed in other subjects, have little or no knowledge
of beer.

Ninety per cent. of beer consists of water. Pure
potable water is the first requisite in every brewery.
Beer contains just enough nutritious solids to give it a
food value and just enough alcohol (3 to 4 per cent.)
to give it snap and zest as a beverage.

Beer, used in moderation, is both a tonic and a
strength builder. It is free from disease bearing germs
and is one of the few products which pass from manu-
facturer to consumer without coming in contact with
human hands.

Physicians prescribe beer for overworked business-
men, nervous women and others whose condition indi-
cates the need of a tonic. Famous athletic trainers the
world over allow their charges to partake of beer and
unhesitatingly declare that it prevents athletes from
going stale. In other words, it takes off the "wire" edge
so frequently acquired after weeks of hard training for
athletic events.

There is no substitute for beer.

SOUND TEETH; GOOD HEALTH

Ninety persons out of every hundred have diseased teeth and
mouths. Every two persons out of three contract diseases through
the mouth. Keeping the teeth and mouth sound produces good
health. The Cady Dentists are men of experience. They are grad-
uates of the best schools of America. They diagnose every case care-
fully. Diseased teeth are crowned and made useful. Missing teeth
are restored by bridge work. All work is done painlessly.

POLICE TRAP IS STILL WORKING

Five Speeders Caught in Trap by Officer Shader on Saturday Afternoon—They Each Pay \$5—Good Work of Department.

The police department is to be commended on the good work it is doing in rounding up automobile speeders who drive up and down Broadway at a speed of about 25 or more miles an hour, and Saturday Officer Shader in charge of one of the speed traps rounded up five men who were running over 24 miles an hour. So far the police have not made an arrest of a man running from 15 to 21 miles an hour and have been given instructions not to arrest any one running his machine at a less rate than 12 1/2 miles an hour. This gives an auto driver a leeway of 7 miles more than the ordinance allowed, and should meet the hearty approval of all auto drivers.

Saturday's harvest consisted of J. V. McConnell, H. E. Franks and James W. Brown, all of New York city, and who were all running over 24 miles an hour. They each paid Recorder Lane \$5.

Clark Snyder, a local man, was also caught in the net and paid a \$5 fine as well as Henry Rogn, another local man.

LOCAL DEATH RECORD.

Recent Deaths and Funerals of Persons in This Vicinity.

Mrs. Max Mores died suddenly on Saturday at her home, No. 79 Broadway. She is survived by her husband one son and two daughters. The funeral and interment was held on Sunday.

The funeral of Mrs. Fannie Elmore Anderson, widow of Captain A. E. Anderson, was held this afternoon from her late residence, 34 Stuyvesant street, the Rev. C. G. Ellis, D.D., officiating. The remains were placed in a solid mahogany casket with dull bronze trimmings, and were laid to rest in a solid copper vault in the family plot in Montrose cemetery, Stock & Cordis being the undertakers.

The funeral of Mrs. Nellie Rindan Hoffman, wife of Anthony Hoffman, who died at her home, No. 82 Chambers street, Friday evening, will be held Tuesday morning at 9 o'clock from the late residence and at 9:30 o'clock from St. Peter's Church. The Society of Christian Mothers and the St. Barbara's Society are invited to attend the funeral at the church. She is survived by her husband and two sons, John Francis of this city, and Daniel of Albany.

The funeral of Katherine Lennon, wife of David McSherry, was held this morning from her late residence at 9 o'clock and at 9:30 from St. Mary's Church, where a mass was celebrated for the repose of her soul by the Rev. Stephen Connelly with the Rev. Dean Hickey in the chancel. The pallbearers were Frank O'Reilly, Charles Partian, John Larkin and John Lennon. The Rev. Father McLean accompanied the remains to St. Mary's cemetery where the interment took place.

The funeral of William U. Mason, which was held at the First Reformed Dutch Church on Sunday afternoon, and which was a Masonic funeral, was largely attended. The Rev. Dr. J. L. Leeper paid a high tribute to Mr. Mason, for so many years was actively and officially connected with the church. During the services at the church, Alfred Van Buren having charge of the Masonic portion of the services, "Lead Kindly Light" and "Abide With Me" were feelingly sung by a male quartet composed by C. E. Wonderly, Chauncey Main, John Hall and Gordon Burhans, with W. Whitting Fredenburgh, organist of the church, at the organ. The honorary bearers were the officers of the lodge, Elvah H. Bogart, W. Frank Davis, R. E. Leighton, Newton H. Fessenden, William M. Myer and Ernest W. Kearney. The Masonic services at the grave were in charge of Elvah H. Bogart.

HICKS EXPLAINS.

ODD FELLOWS' CARNIVAL OPENS

The Krause Greater Shows arrived in town Sunday evening from Plainfield, N. J., and the grounds were the scene of greatest activity while the erection of tents and platforms was going on. The carnival opened today with everything in full swing and for the next week the people of Kingston will be entertained by this aggregation of amusements brought to town by the Odd Fellows' Association of Kingston. The Krause Shows are noted for their clean cut shows and where-ever they have played they have created the best of comment upon their clean shows and fine appearances.

The free feature of the show will be the high dive, which will take place every day, by Miss Minnie Myers who has succeeded her sister in this act. Alma Myers who was scheduled to do the high dive decided that married life would better suit her and after several years with the Krause shows she abandoned her post to her younger sister who will take the part of mermaid while the shows are in Kingston.

The shows presented by the management are of exceptionally fine calibre and many are entirely new. The center of attraction is the standing of the contestants in the diamond ring contest. The girls of the contestants up until today is Helen Brice, 3,015; Ella Klein, 3,644; Ethel Van Wageningen, 3,369.

The standing of the boys in the bicycle contest is: Eddie Leverett, 500; Howard Kelder, 500; Raymond Kohler, 250; Lester Finch, 50; Rudolph R. Pieper, 50; William Adams, 50; Laddie Johnson, 50; Charles Woolsey, 50.

ABOUT THE FOLKS.

Mrs. W. Legg of Staten Island spent the week end with Mrs. David Blodgett at 119 St. James street.

Mr. and Mrs. E. S. Craft and Mr. and Mrs. G. F. Regendahl motored to Coxsack and Hudson on Sunday.

Joseph Reynolds of the Hudson River Day Line was in town today attending the funeral of Mrs. A. E. Anderson.

Dr. Frank A. Johnston, the health officer, who called out of town on business this morning, and will return Wednesday.

Michael Larkin was conveyed from the West Shore station to the Benedictine Sanitarium on Saturday in the city ambulance.

Miss May Morgan, nurse at the Catskill hospital, has resigned her position and returned to her home in Kingston to take up private nursing.

Raymond C. Weber has left town to be stationed at Quincy, Mass., as a marine draftsman with the Luckenbach Corporation, shipbuilders.

Conductor M. Larkin, of the West Shore R. R., is in the Kingston hospital as the result of injuries sustained when he fell from a box car at Alsen.

Mr. and Mrs. William Swart and daughter, Evelyn of Hasbrouck avenue, have returned from a visit with Mr. and Mrs. Peter Hasbrouck of Poughkeepsie.

Mr. and Mrs. Glenn H. Kidney of 129 Franklin street are receiving congratulations on the birth of a daughter, Saturday at Kingston City Hospital. Mr. Kidney is principal of School No. 6.

Miss Irene Cranston, daughter of Rev. George M. Cranston, of the Clinton Avenue M. E. Church, who was operated on a few days ago at the Wauna Sanitarium, is improving slowly from the serious operation.

Miss Emma Messing of 15 Ardley street and Miss Lillie Messing of 199 Greenkill avenue spent Sunday at Stone Ridge and High Falls visiting Private Arnold Jennings and Private Stephen Kaufman of Albany, Company C, 1st Infantry.

Commissioner Edward McKee, Mrs. McKee and daughter Miss Mary have returned to Harrison, N. J., after making several automobile trips with Mr. and Mrs. James F. Burns of Clinton avenue and Mrs. Robert Murphy and Miss Katherine Murphy of East Chester street, having motored to the Ashokan water works on Friday and on Saturday to Ellenville and Lackawack and dining at Mr. Shells Hotel and on Sunday motoring to Ridgefield Park, N. J., and New York.

Chicken Supper Tomorrow Evening. Tomorrow is the date of the annual May supper and festival of the Holy Spirit Church, and all who enjoy a delicious repast are reminded that this supper will be especially toothsome. The supper will be served from 5 to 8 o'clock and will include the following delicious dishes: Chicken patties, rice croquettes, asparagus, olives, radishes, strawberry shortcake, coffee. There will also be home made candy, straw, etc., for sale, and after the supper dancing will be enjoyed. The supper, sale and dance will be held in Griffiths Hall.

Cared of Thanks.

I wish to thank my many neighbors and friends for their acts of kindness during the sickness and after the death of my husband, Morgan E. Turner, also for floral tributes.

MRS. MORGAN E. TURNER, Eddyville, N. Y.—Advertisement.

SOCIETY NOTES.

The engagement of Miss Marie Calvin to Chris J. Flanagan a popular uptown attorney, has been announced.

All members of the Loyal Friends' Aid Society are urged to attend a special meeting Tuesday evening, May 22, at the Hebrew school. Very important business must be disposed of, so it is desired that every one should be present at 8 o'clock.

Miss Katherine Rasmussen gave a delightful surprise party at her home, 254 First avenue, on Tuesday evening, May 15, in honor of Miss Mary Boice. Piano solos were rendered by Miss Katherine Kramer and Miss Gussie Brodhead. Refreshments were served at a late hour. Those present were the Misses Mary Boice, Ella Ganser, Katherine Rasmussen, Elsie Barth, Katherine Kramer, Margaret Barth, Gussie Brodhead, Mary Wesolowski, Stella McColl, Madeline Kramer, Mae Brodhead, Bertha Sherry, Fannie Fields, Jennie Wesolowski, Marjorie Klein, Rose Jensen, Emma and Helen Rasmussen, Bernard Rourke, John Newman, Fred Kravitz, George Kramer, John Sass, Joe Schupp, James Kerns, Francis Perry, James White, William Wolfie, Albert Klein, Harold Roche, Francis Ross, Nicholas Klennfeld, George Weber, John Rourke and Francis Reiley. All departed at a late hour voting Miss Boice and Miss Rasmussen royal entertainers.

Miss Viola H. Berrian was the hostess on Friday evening of a delightful party, given at her home on Lindsley avenue in honor of her birthday. Games were played and dancing was greatly enjoyed with music by Clarence and Charles Beecher, pianist and violinist, their playing being a special feature of the evening. At a late hour the guests were served with delicious refreshments, a birthday cake with the exact number of candles burning on it, being of considerable interest. Many pretty and appreciated gifts were received by Miss Berrian from her friends. The Misses Jennie Frost of St. Remy, Lillian Metcalf, Ruth Gill, Marion Way, Susie Geisler, Esther Kellerman, Gertrude Lebert and Messrs. LeRoy Addis of Catskill, Clarence and Charles Beecher of St. Remy, Webster Crane, Walter Tagimany, Walter Mowell, Floyd Bilyou, Eugene Koles, Ralph and Ernest Heppner, Burton Richter, Ray Libolt and Stanley Lebert. The guests departed in the early hours of the morning, wishing their hostess many more happy birthdays.

A pleasing recital was given by a few of Miss Helen May Turner's pupils at her home on Main street Saturday afternoon. Miss Kathryn Van Buren very ably assisted with the violin selections playing the "Meditation" from "Thais" and "Aria" by Pergolesi. The program was opened by a duet "Sonatina" by Diabelli, played by Ella Whitney and Miss Turner. Master Philip Hauser next played "Rose Petals" by Lawton with good round tone. Miss Sarah Davis rendered Theodor Dutton's "Rain Pitter Patter" brightly and gracefully. Duvernoy's "Bhutte Valse" was then played by Miss Gertrude Woolsey who displayed real musical ability. Miss Gladys Reynolds gave "Around the May Pole" by Dennie a spirited rendition. A graceful, well executed duet "In the Swing" by Low was played by Miss Sarah Davis and Miss Carolyn Van Keuren. Little Ella Whitney delighted all with the Giese "March," which she played with sure rhythm and the assurance of an artist. An especially well executed selection was "Dorothy," an old English dance of Seymour Smith's as played by Miss Caroline Van Keuren. Two number of Florence Ransbrouk followed "The Revel of the Wood Nymphs" played with great flexibility of fingers and good interpretative ability by Miss Winifred Lowe and "The White Violet" given by Miss Hazel Dutton with much feeling and a beautiful singing tone.

The program closed with Jeffery's "March Joyeuse" rendered beautifully by Miss Winifred Lowe and Miss Gladys Reynolds. The pupils are to be commended for their excellent memory work, their grace of execution, good tone and rhythm.

Recital at English Lutheran Church. Tuesday evening, beginning at 8:15 o'clock, the following fine recital will be given at the English Lutheran Church of the Redeemer, corner Wurts and Rogers street, by Harry P. Dodge, organist of St. John's Episcopal Church, this city, and John Hassler, baritone soloist: Grand Choeur.....Hollins Harry P. Dodge.....Maxson "More Love to Thee, O Christ".....Maxson

Delightful Pupils' Recital. The piano forte pupils of Mrs. Harry P. Dodge gave a very pleasing and admirably presented recital at the Dodge studio on Green street on Saturday afternoon last. As all of the numbers were exceptionally well rendered by the young musicians it would indeed be most unfair to make special mention of any number. The studio was artistically decorated with spring flowers and the happy faces of the children, together with the pretty blossoms presented a charming picture. The program was as follows:

Miss Mary.....Newton Swift Pauline Herb.....Gurli Ruth Keator.....Parlow Spring Breezes.....Parlow Star.

Safety First For Investors.

A conservative policy would prompt all-burrs of securities to invest at least a portion of their capital in sound bonds. Many investors have a preference exclusively for stocks because the latter may render a higher yield or may fluctuate more widely, thus offering larger chances for speculative profit. Dividend paying shares of the seasoned sort are not to be belittled, and they will perhaps always form the major portion of the average investor's purchases. There is reasonable safety in them. But former "cornerstones of fortune" are found in the better class bonds. These are not necessarily gilt edged, but they are well secured. In times of prosperity the issuing corporations have no difficulty in meeting interest charges. In times of depression dividends on stocks may be suspended, but the enterprise must pay interest on its bonds or submit to foreclosure. And in such event the bondholder rarely suffers loss. Their high degree of stability and safety commends good bonds as an indispensable part of any well established estate.—Leslie's Weekly.

Save Your Eyesight.

"A great many men who are well enough informed on other topics do not know the first principles of how to conserve their eyesight." Dr. Eugene L. Fisk is quoted in World's Work. "They may be conscious of eye strain and yet unconsciously go right on doing many things to increase that strain, things such as—reading a newspaper on a jiggly street car, working with a light directly behind them or directly in their faces, reading or working in too bright a glare or in a dim or flickering illumination. They do not realize that they might well limit their allowance of moving pictures. They do not know the harm in too brilliant a desk light. They buy worthless patent nostrums for the eye and have a positive dread about adopting glasses. The price they pay for all this is often extremely dear. It ranges from constant physical discomfort to loss of sight."

Lungs of the Whale. Concerning the breathing apparatus of the whale an eminent naturalist says: "The windpipe does not communicate with the mouth. A hole is, as it were, bored right through the back of the head. Engineers would do well to copy the action of the valve of the whale's blow hole. A more perfect piece of structure it is impossible to imagine. Day and night, asleep or awake, the whale works his breathing apparatus in such a manner that not a drop of water ever gets down into the lungs. Again, the whale must of necessity stay a much longer period under water than seals. This alone might possibly drown him, inasmuch as the lungs cannot have access to fresh air. We find that this difficulty has been anticipated and obviated by a peculiar reservoir in the venous system, which reservoir is situated at the back of the lungs."

Marked the Snakes. A member of the house of representatives last season had a habit of marking certain bills on his bill file with a blue pencil, making curious spiral wriggly lines all over the face of each bill he marked.

"Why do you mark your bill file in that manner?" one day asked the legislator who set next to him. "I do that," he answered, "because them bills has a snake in them, and they ain't goin' to wriggle through without my votin' agin them. I know them when I get them by the blue snake marks."—Harrisburg Star-Independent.

Retaliation. Mrs. Newkew—If you hadn't made me dent this cream pitcher by throwing it at you we might give it to Belle and Jack when they get married.

Mr. Newkew—Give it to them by all means. Jack introduced us, and Belle gave us the pitcher. It will be retributive justice.—Exchange.

Fearless. "There goes a man who has faced death in every possible form without a tremor."

"He doesn't look like a man who has led a particularly adventurous life."

"He hasn't, but he goes to the movies every night in the week."—New York World.

Speed of the Dromedary. The speed of the dromedary has been greatly exaggerated. The Arabs asserting that it is swifter than the horse, but eight or nine miles an hour is the utmost that it is able to perform. This pace, however, it can keep up for hours together.

An Admiring Spectator. "I never saw a man with a truer eye for measurement or a truer hand for execution."

"You refer to a sculptor?"

"No; to the butcher who cut a steak for me this morning."—Washington Star.

COMPANY M WOULD APPRECIATE AUTOS

Arrangements are being made whereby Company M will attend the field mass at New Paltz Sunday morning, May 27. The mass being of a military character, members of Company M agreed to attend the services as a unit.

As the train schedule is such that the company cannot be transported by rail, Captain Meagher expects to take his command to New Paltz by automobiles. Those owners of machines who feel at liberty to offer their auto to transport the soldier boys on this occasion, which will be greatly appreciated by the local guardsmen, may leave their name and the number they can accommodate at the armory.

The mass will be celebrated by Chaplain Kelly of the Tenth Infantry, assisted by the Rev. Father Hopkins, pastor of the Roman Catholic Church at Ireland corners, which church members of Company M attended while on duty along the aqueduct.

FINANCIAL AND COMMERCIAL

By Telegraph to The Freeman.

New York, May 21.—The manner in which the strong tone was maintained in the leading issues during the greater part of the forenoon was the subject of general comment on the floor. Buying orders came in on a large scale from many sources, and although some commission houses were sellers, the supply was quickly absorbed. Steel Common advanced over 2 points to 124 1/2. Lackawanna Steel moved up 3 points to 94 1/2. Crucible made a gain of over 2 points to 70 1/2 and Midvale rose 1 1/2 to 60 1/2. The railroads were generally higher with Union Pacific advancing 3/4 to 135 1/2. The greatest gain was made in Ohio Cities Gas, which advanced over 4 points to 138 1/2. The copper stocks were in good demand with Anaconda and American Smelting showing advances of about 1 point.

Lackawanna Steel made a further advance to 95 and Baldwin Locomotive advanced to 61. Colorado Fuel sold up to 53 1/2, a gain of 2 points, and American Locomotive advanced to 71.

The final tone was strong. The trading in the last hour was almost wholly in the steel issues. Steel Common advanced to a new high record for the year of 125 1/2.

Daley Hadly Burned. Saturday afternoon John Daley of No. 120 Hunter street, was badly burned about the face and neck when a bucket of hot pitch overturned. He was working on Leach's boatyard at the time and was removed to the Benedictine Sanitarium by Dr. John F. Larkin, who is attending him.

Getting Contentment. I've been a great deal happier since I have given up thinking about what I have and what I want. I am contented because I couldn't have my own will. Our life is determined for us, and it makes the mind very free when we give up wishing and only think of bearing what is laid upon us and doing what is given us to do.—George Eliot.

ELLISON'S MODEL

By RUTH GRAHAM

The two countries that are the choicest depositories of art are Italy and Spain. Italy is regarded as the world center of art, but it has been asserted that there are more famous pictures in the galleries of Spain than in any other country. The paintings of the great Murillo are chiefly to be found in the Spanish peninsula.

It was for this reason that Tom Ellison, American art student, when he went abroad to study chose Spain in preference to Italy. He was a great admirer of Murillo, who has left the world so many beautiful pictures of the Madonna and the Christ Child. On reaching Spain Ellison hunted up the various pictures by the artist he admired and became more and more infatuated with them than ever. He was seized with a desire to paint a picture the central figure of which would be of the type of one of Murillo's Madonnas.

For this he must have a model, and for his model he went up into the mountains, hoping to find her among the dark eyed Spanish daughters of mountaineers.

One day while walking on a road on a plateau he came upon a girl tending a small flock of sheep. As he came near her she raised her eyes to his, and he knew at once he had found his model. There were in them trustfulness, purity, love. It occurred to Ellison to paint her as he found her sitting on a rock, a crook in her hand, a little lamb in her lap, while the sheep were nibbling the grass about her.

To call out the expression he desired Ellison chatted with her, or rather, to her, for he did most of the talking. He was a handsome fellow, with a musical voice, and had the faculty of imparting information attractively, and the girl listened to him with wrapt attention. But she said nothing.

Every day Dolores—that was her name—was at the place he first saw her tending the sheep, and every day Ellison brought his easel, and while she posed for him on her rock seat he sat on his camp stool before her with his canvas set up on his easel. Gradually the picture took shape, but the artist was a long time about his work. The position he chose for the girl was looking straight at him, for he wished the figure in the picture to appear to be looking at whoever gazed upon it.

Ellison was so absorbed with his work that he did not notice what any one else would have seen plainly—that the girl was as much absorbed in the artist as the artist was absorbed in his picture. Another strange feature is that he got something of her wrapt expression on the canvas without being aware of what was causing it. When the painting was finished Ellison was delighted with it. And he had cause to be. It was a beautiful picture of a shepherdess—pure, innocent, loving.

Ellison produced a gold piece, he handed to his model, for he considered her well worth the price he paid for posing. She refused to take it. Ellison made every effort to induce her to do so. Failing, he gave her his heartfelt thanks. She was at the time looking up into his face with the same expression as when she had been posing. She looked so sweetly innocent that he bent down and kissed her, and he would kiss a child.

"I go down the mountain tomorrow," he said. "I will come here and bid you goodbye."

Gathering his belongings, he walked away from her. Before passing out of sight he turned and threw her a kiss. She was still looking straight at him with those Madonna eyes of hers, but made no motion.

After he had given a marvelous change came over her face. If Ellison had seen her then he would have wondered how with her for a model he could have made a picture of innocence. Had the innocence been there and had it been warped by love, or rather, the prospect of losing the object loved? The only explanation is that the lower the scale of humanity the nearer to the brute creation. The moods are there, but they have not been cultivated.

Looking on the ground, Dolores saw that the artist had left the pipe he had smoked while working on his picture. She took it up and thrust it into her bosom.

True to his promise, the next morning Ellison appeared to say goodbye to his model. He gave her another kiss, which she accepted passively. Ellison noticed that her lips were cold.

"Sense left her pipe," she said. "I have filled it with tobacco. Have me smoke before you go."

"No, I have only time to give you another kiss. I will smoke it tonight, thinking of you."

That evening Ellison at his inn after supper lighted the pipe. There came a tiny flash. He wondered what could have caused it. The tobacco was very bad, and he concluded that he could smoke better of his own weed. Emptying the pipe on a stone pavement, there came several separate small explosions. Under the outer layer of tobacco had been placed a charge of gunpowder. Had he smoked longer he would probably have been blinded.

This episode made a great change in Ellison. What during its occurrence had seemed to him a mere trifling affair became later a very bitter memory.

He never could again look upon the picture without seeing in the beautiful face not the former innocence, but the inner evil of the soul.

The Difference. Everything depends upon a viewpoint. When you play a good one on the other fellow it is a fine example of a practical joke, but when he gets back at you it is a bloomin' outrage.—Indianapolis Star.

ROXBURY DOCTOR KILLS HIMSELF

Dr. Harry Keator one of the most prominent and capable surgeons and doctors of Delaware county committed suicide Sunday morning, at his home in Roxbury by shooting himself in the head. Death was instantaneous. For some time he had been in ill health and on Saturday he probably planned for the act which was committed some time during the morning. Sunday a number of personal papers and letters he burned Saturday and Sunday at 11 a. m. lay down on a couch and holding a revolver close to his head he pulled the trigger. The bullet lodged in his brain entering just back of the ear.

Dr. Keator was about forty years old and was one of the best known and competent physicians and surgeons in this part of the county. He had been a resident of Roxbury all his life where he had a large practice and was regarded as one of the most capable doctors in the county.

When he was found about 10 o'clock Sunday morning some time after the shot had been fired he was fully clothed and had evidently planned the act and prepared for it for some time.

Dr. Keator is the son of the late Charles and Rose Keator and had just moved in Roxbury. Two sisters, Miss Anna Keator, a nurse in New York city and Mrs. Richard L. Keator of Roxbury survive.

COMPANY M WANTS SEVENTY RECRUITS

New Orders Direct Filling in Vacancies and Increasing Company Up to War Strength of 150 Men—New Pay Scale Attains

Orders were received in Captain Frank L. Meagher of Company M, 10th Regiment Sunday night to at once recruit the company up to its strength of 150 men. This means that seventy men are needed at once at the armory and every man liable to conscription is urged to join now and thus avoid transfer to other companies as may be the case under conscription. The term is for the duration of the war instead of the usual six year period.

First the National Guard will probably see service in France soon after it is not coincidental with the regular army is the belief of guard officers. The New York division stands at the head of the National Guard and this summer will probably see New York troops sent up to full war strength and being needed for foreign service.

Under the new recruiting head quarters in New York Captain Meagher will end in daily reports of the recruiting campaign which will be inaugurated at once. The new pay scale of \$30 a month with subsistence and clothing makes the service especially attractive and it is believed a number of Kingston and local county men will join with the home organization. The three run (100) chances of being called out with unit from other states is likely under conscription.

The 10th Regiment Band has now been called to full strength and will be some first class musicians five of these coming from Kingston.

Parent Teachers Meet Officers

The meeting of the Parent Teachers Association of School No. 6 held this week at the school was the last to be held this season. The nature of an annual meeting of officers were elected as follows: President Mrs. Meagher, vice president Mrs. Clark, secretary treasurer Mrs. Bonestell. There was a very large attendance at the meeting, there being some sixty mothers and teachers present. Mr. Kinney entertained the gathering with a very interesting and a most interesting lecture on the exhibition of sewing and manual training and weaving done by the pupils. The exhibit was remarkably fine showing most careful training on the part of the teachers.

Musical Banquet

The choir of the Trinity M. E. Church entertained at a musical banquet of that church at a banquet in the lecture room of the church on Wednesday evening of last week. It was a most delightful affair, there being some 40 guests present. Brief addresses in the nature of toasts were made by Misses Burger, the music committee, Randolph West, representing the senior choir, Dr. Foll and pastor West also addressed those present and solos were sung delightfully by Miss Knapp. The success of the affair was a large measure to the efforts of Miss Foll, Mauterlock, the efficient choir director.

WINNERS MAY GO TO HEAR BILLY SUNDAY

The Young Men's Bible Class of the Clinton Avenue M. E. Church known as the Winners are planning to conduct an excursion to New York city some time during the early part of June and attend the Billy Sunday revival meeting at the tabernacle. No definite plans have yet been made but the young men will arrange to secure the steamer Mary Powell and if arrangements can be made for reservations at the tabernacle the excursion will probably be held either on Tuesday June 5 or 12.

The plans as discussed by the class Sunday provided for the chartering of the steamer Mary Powell to leave Rondout at about 8 o'clock arriving in New York shortly after noon. The boat will land at 129th street which is near the Sunday tabernacle. Reservations for the Kingston delegation and coupons attached to the steamer tickets will entitle the holder to a reserved seat. The boat will leave 129th street at about 5:30 o'clock which will give the people ample time to reach the boat by elevated train from the tabernacle.

Not only will the excursion give Kingston people an opportunity to hear the famous evangelist but any one desiring to make a shopping trip to the metropolis will find this an excellent opportunity to make the trip by boat. The excursion will be made under the auspices of The Winners Class of the church and plans and final arrangements as to dates and time will be made known as soon as the committee hears from Billy Sunday's manager as to when reservations can be made.

KENNEDY JONES WORKMEN MUST HAVE MORE LIQUID

The question of whether British workmen must give up their beer is the subject of the latest meeting of the London according to Kennedy Jones M. P. Director of food economy. Mr. Jones has issued this statement:

Whether the growing of beer should be stopped at once and the barley already malted used for mixing with flour is a question of policy and hinges on the point whether the malt in bread or in beer will secure the most efficient prosecution of the war.

I think America has been too long for centuries a part of the daily diet of our working classes. The first duty and the first effort of those responsible for the ordering of public affairs is to secure a minimum output of work for the prosecution of the war from all workers.

A great number of men engaged in very heavy manual labor—as for example men working at blast furnaces—must drink considerable malt liquid. This is not only a practical fact it is a scientific fact. The bulk of these men are in the habit of taking that liquid in the form of beer. This question is not whether cold tea would be better for them but what would be the effect on the output of work in suddenly cutting off their supply of beer.

Also it is well to bear in mind that if the worker is not drinking part of his energy as he has been his habit from beer he may require more bread so that a practically no actual saving of bread could be effected.

Eyeglasses for Diver
A new eyeglass has been patented for the use of submarine divers. It is well known that the human eye does not function properly under water, objects appearing badly blurred and distorted. This is due to the fact that the speed of light in water is different from the speed of light in air, and hence the light rays enter the eye with a different angle of refraction. The eye, being designed for focusing rays coming through the air, is unable to focus rays coming through the water.

PRIMROSE CLUB SWAMPS CATSKILL

The Primrose Club of this city easily defeated the Catskill team at McVey's field Sunday afternoon by a score of 19 to 5. Pfeister, the Catskill moundsman, was no mystery to the local swatmen and they soon drove him from the mound. Sy Connors then took up the pitching burden but fared no better than this predecessor.

Artie Rice, the Catskill captain, injured his foot in the fourth inning and was forced to retire. This seemed to dishearten his teammates as they went all to pieces, thereafter the Primrose Club scored at will. This game was a disappointment to the Primrose management as the Catskill Club always put up a strong game in this city and were looked on the strength of their former record.

The fans are assured of a far better exhibition next Sunday when the Primrose Club meet the fast Gamets of Albany. This is the best club in the capitol district and are sure to put up a fast game.

Dick Williams, who has been invincible so far this season, will be on the mound for the Primrose with Scherick behind the bat.

The game will be called at 5 o'clock.

LARGE AUDIENCE AT CONFIRMATION

First English Confirmation Service at Spring Street German Lutheran Church Sunday Night When Eighteen Are Received Into Membership.

The confirmation service at the Spring Street German Lutheran Church on Sunday evening was a solemn and inspiring occasion. The services were in English and the class of 18 children is the first English confirmation class of children in the history of the church. A large audience filled the church, that was beautifully decorated with palms and cut flowers. Special organ and choral music was rendered.

It was an impressive sight when the catechumen knelt, confessed their Lutheran creed and received the blessing. They will receive their first communion next Sunday evening, Whitsuntide, at the English service.

Addressing the audience, the Rev. A. Schmidt said: "Beloved Friends: 'We have assembled this evening for a holy and solemn celebration. The solemn services, the beautiful decorations and the large and joyful gatherings proclaim to us the meaning of this celebration. These children, whom God, our heavenly Father, in His divine mercy accepted as his children in holy baptism, extend to confess their faith before the Lord and before this congregation, after they have proved that they know the doctrines of our church, as far as this can be expected of them. They intend to make a holy vow and surrender themselves to a life of obedience and submission to the Lord and his church. They have come to be confirmed, and they desire to receive the blessing of the church.'

"The present hour fills us with holy joy. Who of us would not rejoice today over the fact that our congregation again adds new communicants to her membership. On Palm Sunday a class of 12 children were confirmed at this altar, and this evening a class of 18 children shall be confirmed. Let us rejoice and thank God for this splendid increase of our dear congregation. We have need of these new accessions to our ranks. Our congregation has gone through many hardships, struggles and trials. Two separations occurred. The hand of death has been busy and a large number of faithful and active members have passed away, but the Lord has given us new members to fill the vacant places.

"The introduction of English services marked a new period in the history of our congregation. It was the spirit of love for our young people which moved us to do this important step. Many of those who attended our parochial school and learned their catechism in German, can follow the German language and are not in need of English services, but others again, lacking a sufficient knowledge of the German language, prefer English services. Besides these we have with us intermarried people whom we wish to reach and win for our church.

"We do not proselyte among the members of other Christian churches, but we welcome all who wish to worship with us, or have a desire to become members of our church, and we are well equipped to take care of them. Those who come to us because they seek the salvation of their souls shall not be disappointed.

"We have in our Lutheran Church the old blessed gospel, not a new, not the modern gospel, which does away with the Saviour Jesus Christ and denies the divinity and His redemption. We have the old gospel as set forth in the holy scriptures, the gospel which informs us that Christ Jesus came into this world to save sinners. We have the pure word of God and the correct use of the holy sacraments. We have the pure doctrine of God's word as it has been handed down to us by our fathers in the confessions of our church. We have God's appointed and most effective and successful method to save souls and gather them into the kingdom of God.

"Those who come to us will find what they need for the salvation of their immortal souls and I am sure that the more they become acquainted with the history and teachings of our church the more they will prize and love her and join in singing:

My church, my church, my dear old church,
I love her ancient name;
And God forbid, a child of hers
Should ever do her shame.
Her mother-care, I'll ever share;
Her child I am alone;
'Till He who gave me to her arms,
Shall call me to His own.

"Since 1911, when we introduced English services, 50 English members were received by confirmation, and the English class of 18 children to be confirmed this evening is another harvest of our English church work.

"We have much reason to thank the Lord for his kindness, guidance and blessings, which He bestowed on our congregation, and the solemn occasion this evening is a new proof that the Lord is with us. He is with us and his word and grace shall never fail this congregation, and with it shall come every necessary gift for the upbuilding of his kingdom among us.

"Heaven let us be faithful to our great trust, let us hold fast without wavering the profession of our faith, let us serve the Lord and his church still more faithfully, more earnestly. Let us take a more active part in all that pertains to the welfare of our church, so that still greater and nobler things may be done.

"Our thoughts, our feeling and our good wishes are directed to these children, who have come in solemn procession to this altar with the confession of faith upon their lips and

the vow of fidelity in their hearts. They are dear to us. Many bonds of love and affection unite us with them. We look upon them with eyes dimmed by tears of joy with hearts full of warmest wishes and fervent prayers, and with the hope of a blessed future for them.

"Dear children, we love you. We bid you a hearty welcome. You are our hope. We look upon you as the gardener looks upon the flowers which he has planted and watered, nourished and cultivated. You are to confess Christ before men. You are to vow fidelity to Christ and to His church. Remember that not he who once upon a time made a good confession before many witnesses shall receive at last the crown of life, but he that is faithful unto death. Therefore continue in the things which you have learned and are assured of. Be steadfast in your faith, and be true to the Lord and His church. Walk faithfully upon the narrow way that leads unto life. O that we may all reach the heavenly home, and that none of us may be missed there. Amen."

Making "Cigarette-Comfort" for a Nation

Every minute of every day great batteries of throbbing machines are whirling out Fatimas by thousands.

Fifty-eight per clock-tick is Fatima's average—an average that is growing day by day because of Fatima's comfort.

Throughout the length and breadth of this great country, more smokers are daily learning the comfort-lesson Fatimas teach—

the comfort to throat and tongue while smoking and the man-comfort that follows after smoking.

It's this constantly growing demand for Fatima-comfort that keeps the Fatima machines pouring forth thousands upon thousands of these famous cigarettes.

And it's this common-sense "cigarette-comfort" that makes men call Fatimas a sensible cigarette.

DRY LISTER IS THEIR GOAL.

Temperance Forces Arrange Meet-
ings—Mr. Howard to Speak.

The temperance forces in this
county are uniting in an effort to
make Ulster county, like the ad-
joining county, Delaware dry. The
Ministerial Association of this city,
the W. C. T. U., some of the
organizers, the Citizens' League and
the County Sunday School Asso-
ciation have united in securing for
ten or twelve days work, Frank E.
Howard, better known as ex convict
11221. He will begin his work in
the county Thursday, May 24, and
close Sunday, June 3.

A tentative program has been ar-
ranged. Thursday night, May 24, at
union services in the Presbyterian
Church, Marlborough. Friday eve-
ning, May 25, Grange Hall.
Saturday evening, May 26, Grange
Hall. Sunday, May 27, he will speak in
this city 10:30 a. m., Albany Ave-
nue Baptist Church, evening union
service downtown. Tuesday evening
he will be at Ellenville, Wednesday
evening, May 29, at Stone Ridge
Grange Hall. Thursday, May 31, at
Port Jervis. Friday, June 1, Sauger-
ties. Sunday, June 3, in Kingston.

While other phases of temperance
work will be essential, this is in-
tended as the opening of the No
License Campaign. For the first
time.

Kingston will have a chance to vote
out the saloon.
It is true that we may have na-
tional prohibition before that time
as a war measure, but the forces
that stand for temperance do not
propose to lose any opportunity to
make the home county dry.

Mr. Howard comes with the
highest recommendation. He has a
message that stirs men. We are in-
formed that at a meeting in Middle-
town a few weeks ago 1250 crowded
the room where he spoke, and hun-
dreds were turned away. It is ex-
pected that he will stir Ulster county
as it has never been stirred before.

BEER contains about
92 per cent. water and about
5 per cent. of extract derived
from hops and cereals prin-
cipally Barley malt and
only about
3 to 4 per cent. alcohol.

What is Beer?

Notwithstanding
the fact that beer has
become the most
popular beverage of
the United States, a
vast number of well-meaning people, who are thorow-
ly versed in other subjects, have little or no knowledge
of beer.

Ninety per cent. of beer consists of water. Pure
potable water is the first requisite in every brewery.
Beer contains just enough nutritious solids to give it a
food value and just enough alcohol (3 to 4 per cent.)
to give it snap and zest as a beverage.

Beer, used in moderation, is both a tonic and a
strength builder. It is free from disease bearing germs
and is one of the few products which pass from manu-
facturer to consumer without coming in contact with
human hands.

Physicians prescribe beer for overworked business-
men, nervous women and others whose condition in-
dicates the need of a tonic. Famous athletic trainers the
world over allow their charges to partake of beer and
unhesitatingly declare that it prevents athletes from
going stale. In other words, it takes off the "wire" edge
so frequently acquired after weeks of hard training for
athletic events.

There is no substitute for beer.

SOUND TEETH; GOOD HEALTH

Ninety persons out of every hundred have diseased teeth and
mouths. Every two persons out of three contract diseases through
the mouth. Keeping the teeth and mouth sound produces good
health. The Cady Dentists are men of experience. They are grad-
uates of the best schools of America. Their diagnoses are care-
fully made. Diseased teeth are crowned and made useful. Missing teeth
are restored by bridge-work. All work is done painlessly.

Hazzy Trumbull has been plow-
ing one day the last week for his
mother-in-law, Mrs. Wesley Burger.

An Explanation.
Charlotte had been taught to say the
grace before each meal. One day she
was invited to a little friend's for din-
ner. When the father and mother of
Charlotte were seated for dinner Brad-
dick, a three-year-old brother, bowed
his head and said: "Amen, God, Char-
lotte's grace."
